Appreciating the Art of Television Ted Nannicelli, 2016-09-13 Contemporary television has been marked by such exceptional programming that it is now common to hear claims that TV has finally become an art In *Appreciating the Art of Television* Nannicelli contends that televisual art is not a recent development but has in fact existed for a long time Yet despite the flourishing of two relevant academic subfields the philosophy of film and television aesthetics there is little scholarship on television in general as an art form This book aims to provide scholars active in television aesthetics with a critical overview of the relevant philosophical literature while also giving philosophers of film a particular account of the art of television that will hopefully spur further interest and debate It offers the first sustained theoretical examination of what is involved in appreciating television as an art and how this bears on the practical business of television scholars critics students and fans namely the comprehension interpretation and evaluation of specific televisual artworks *Theories of Crime Through Popular Culture* Sarah E. Daly, 2020-11-25 This textbook brings criminology theories to life through a wide range of popular works in film television and video games including 13 Reasons Why Game of Thrones The Office and Super Mario Bros from a variety of contributors It serves as an engaging and creative introduction to both traditional and modern theories by applying them to more accessible non criminal justice settings It helps students to think more broadly like critical criminologists and to identify these theories in everyday life and modern culture It encourages them to continue their learning outside of the classroom and includes discussion questions following each chapter The chapters use extracts from the original works and support the assertions with research and commentary This textbook will help engage students in the basics of criminology theory from the outset

The View from Somewhere Lewis Raven Wallace, 2023-04-12 MeToo BlackLivesMatter NeverAgain WontBeErased Though both the right and left wing media claim objectivity in their reporting of these and other contentious issues the American public has become increasingly cynical about truth fact and reality In *The View From Somewhere* Lewis Raven Wallace dives deep into the history of objectivity in journalism and how it s been used to gatekeep and silence marginalized writers as far back as Ida B Wells At its core this is a book about fierce journalists who have pursued truth and transparency and sometimes been punished for it not just by tyrannical governments but by journalistic institutions themselves He highlights the stories of journalists who question objectivity with sensitivity and passion Desmond Cole of the Toronto Star New York Times reporter Linda Greenhouse Pulitzer Prize winner Rachel Kadzi Ghansah Peabody winning podcaster John Biewen Guardian correspondent Gary Younge former BuzzFeed reporter Meredith Talusan and many others Wallace also shares his own experiences as a midwestern transgender journalist and activist who

was fired from his job as a national reporter for public radio for speaking out against objectivity in coverage of Trump and white supremacy With insightful steps through history Wallace stresses that journalists have never been mere passive observers the choices they make reflect worldviews tinted by race class gender and geography He upholds the centrality of facts and the necessary discipline of verification but argues against the long held standard of objective media coverage that asks journalists to claim they are without bias Publisher s website
