The White Shaman:

The White Shaman Mural Carolyn E. Boyd, Kim Cox, 2016-11-29 Folded plate 1 leaf 39 x 61 cm folded to 19 x 16 cm in pocket

The White Shaman H. C. ten Berge, 1991 Complex hermetic shamanistic and littered with vibrant references this poetry is vitally alive to the preoccupations of the age in which we live

The White Shaman Jerry Carson, 2004-07 Carson mixes the fictional character of the white shaman with real ordinary people who were caught up in the constant struggle for West Texas from 1830 to 1950 to provide the Comanche side of Texas history

Shamanic Worlds Marjorie Mandelstam Balzer, 2016-09-16 The ancient heartland of shamanism is no longer forbidden territory to travelers or to the spirits But the spirits never left the vastnesses of Siberia and Central Asia as these writings reveal Russian and native experts and an American cultural anthropologist who has done fieldwork in the region introduce us to shamans as the poets therapists healers and even leaders of their communities Among the special features of this collection are remarkable transcriptions of shamanic exhortations and a pathbreaking study of shamanic tales and rituals

Northern Experience and the Myths of Canadian Culture Renée Hulan, 2002 In *Northern Experience and the Myths of Canadian Culture* Renée Hulan disputes the notion that the north is a source of distinct collective identity for Canadians Through a synthesis of critical historical and theoretical approaches to northern subjects in literary studies she challenges the epistemology used to support this idea By investigating mutually dependent categories of identity in literature that depicts northern peoples and places Hulan provides a descriptive account of representative genres in which the north figures as a central theme including autobiography adventure narrative ethnography fiction poetry and travel writing She considers each of these diverse genres in terms of the way it explains the cultural identity of a nation formed from the settlement of immigrant peoples on the lands of dispossessed indigenous peoples Reading against the background of contemporary ethnographic literary and cultural theory Hulan maintains that the collective Canadian identity idealized in many works representing the north does not occur naturally but is artificially constructed in terms of characteristics inflected by historically contingent ideas of gender and race such as self sufficiency independence and endurance and that these characteristics are evoked to justify the nationhood of the Canadian state

Spirit Voices David J. Shi, 2023-05-01 Provides a clear and accessible guide to the many different North Asian shamanic traditions past and present What is shamanism Where is it from How does one become a shaman What are the requirements to become one Anthropologists tell us that the word shaman derives from the Tungus language and traditions but few people understand the full scope of what that means In his groundbreaking book *Spirit Voices* David Shi answers all these questions and more Drawing upon his own ancestral traditions Shi explores the history and practice of shamanism He guides readers through what may be the unfamiliar landscapes of North Asia the place where shamanism was born as well as the largely hidden and unfamiliar traditions of Turkic Mongolic and Tungus shamanism exploring the subtle and unique aspects of each tradition Shi provides a clear and accessible guide that explores the many different North Asian shamanic

traditions So what exactly is shamanism David Shi suggests that the most accurate definition derives from shamanologist Nicholas Breeze Wood who writes A shaman is someone chosen by the spirits typically at or before birth and who can go into a controlled and repeatable deliberate trance state during which they A experience spirit flight where they go to the spirit worlds and meet spirits who they either fight with negotiate with or trick in order to create change in this physical world or B are often taken over possessed by the spirits normally ancestral shaman spirits or local land spirits while in this physical world the spirits using the shaman s voice and body to heal or give advice to members of the shaman s community Without the spirits and their blessing a shaman cannot exist or function Without the trance state it is not shamanism Featuring history firsthand experiential reports mythology and folklore Spirit Voices explores the spirits spirituality tools and practices of true shamanism past and present Shi also provides practical information for those readers seeking to implement shamanic practices including those that are appropriate to noninitiates and outsiders to the culture As the author points out the purpose of shamanism can be summed up in two words coexistence and balance coexistence with our spirits and our communities and the balance that must be preserved between all of us and within ourselves The Remembered Earth Gary Hobson,1981-04 This broad survey of Native American writing today is incisive reflective moving and provocative in its variety Art of Siberia Valentina Gorbatcheva,Marina Federova,2023-12-28 The art of Siberia is a fascinating subject and the artifacts discovered in the hidden archives of the Russian Museum of Ethnography in St Petersburg are nothing less than extraordinary Artwork day to day subjects and photos dating from the turn of the century all represent the testimonies of the Siberian people who refused to yield to the hegemony of a modern world **The Spiritual Nature of Animals** Karlene Stange, DVM,2017-10-10 Beloved Companions Kindred Spirits Karlene Stange s spiritual journey began as she drove her pickup loaded with medical supplies to attend to animals throughout southwestern Colorado where the Animas River carves the landscape As an ambulatory veterinarian she has experienced the challenges sorrows and joys of working with creatures great and small and feels a powerful kinship with these beautiful beings a bond that goes beyond flesh and fur and feathers The Spiritual Nature of Animals chronicles her amazing exploration through the teachings of various religious and cultural traditions as well as her encounters with the magnificent Rocky Mountain terrain and the quirky characters both animal and human who inhabit it **Fear and Temptation** Terry Goldie,1989-04-01 Goldie skillfully reveals the ambivalence of white writers to indigenous culture through an examination of the stereotyping involved in the creation of the image of the Other The treacherous redskin and the Indian maiden embodiments of violence and sex also evoke emotional signs of fear and temptation of white repulsion from and attraction to the indigene and the land Goldie suggests that white culture deeply attracted to the impossible idea of becoming indigenous either rejects native land claims and denies recognition of the original indigenes or incorporates these claims into white assertions of native status After comparing the works of Canadian author Rudy Wiebe and Australian author Patrick White Goldie concludes by linking the results of his literary analysis to

wider cultural concerns particularly land rights He shows that literary views of natives both positive and negative emphasize the same characteristics and he suggests that escape from this limited vision may open the door to solving the problems of native sovereignty

Shamanism Mircea Eliade, 2004-02-08 Surveys the practice of Shamanism over two and a half millennia of human history moving from the Shamanic traditions of Siberia and Central Asia where Shamanism was first observed to North and South America Indonesia Tibet China and beyond Eliade illuminates the magical religious life of societies that give primacy of place to the figure of the Shaman at once magician and medicine man healer and miracle doer priest mystic and poet

Rock Art of the Lower Pecos Carolyn E. Boyd, 2003 Boyd sees a way that hunter gatherer artists expressed their belief systems provided a mechanism for social and environmental adaptation and acted as agents in the social economic and ideological affairs of the community She offers detailed information gleaned from the art regarding the nature of the Lower Pecos cosmos ritual practices involving the use of sacramental and medicinal plants and hunter gatherer lifeways
