Lessons from an Indian Day School Adrea Lawrence, 2011-10-18 Clara D True and Clinton J Crandall teacher and superintendent for the Indian Day School of the Santa Clara Pueblo were typical agents in the campaign waged by the federal government to assimilate Native Americans into mainstream American society As the primary Office of Indian Affairs officials for the Pueblo True and Crandall administered the school and also served as de facto health officials demographers arbiters and legal consultants as well as the eyes and ears of the government Drawing upon an extensive correspondence between True and

Crandall from 1902 to 1907 Adrea Lawrence provides an intimate look at the daily lives and challenges that the two educators faced as they worked with a diverse community of Tewa Indians and Hispanos Through this long overlooked correspondence Lawrence introduces us to two fascinating characters flawed but intent individuals charged with the task of carrying out the government's colonialist Indian education policy Through descriptions of such episodes as their disdain for older Indians suspicion of vaccination True and Crandall provide clear examples of the inherent contradictions in the federal government's culturally insensitive approach toward its Indian population Yet they were also great advocates for the Indians often stepping in to mediate in matters involving land and taxation The complex portrait of these educators that emerges is based not just on the letters but also on corresponding documents from Pueblo Indians periodicals legal cases statutes Indian Office circulars and anthropological studies conducted by both Native and non Native scholars Lawrence reveals the challenges federal employees faced as they tried to execute the federal policy of assimilation while dealing with educative issues relating to land disease citizenship and modes of education that confronted Santa Clara Pueblo and its neighbors Several recurring themes are traced through each chapter such as colonization as negotiation place as a participant True and Crandall's notions of good and bad Indians and the significance of the relationships among Pueblo Indians Hispanos and Anglos Simultaneously caring and condescending dedicated yet oblivious to cultural complexities True and Crandall in these letters offer a rare and nuanced look at the daily interactions between OIA employees and their charges It makes a unique contribution to both Native American and education history

Peak Vitality Jeanne House, 2008-03-31 We often strive for our peak of accomplishment peak health peak wealth peak performance The idea for this anthology came from a further question that is both simple but provocative What if we could exceed the upper limits of our performance What would happen if rather than focusing on being physically well we imagined ourselves physically vibrant What would happen if rather than seeking 100% of the good that might come to us we pushed past our boundaries and pictured what 112% might look like What would happen if we took our upper limits of

vision as a baseline rather than a ceiling Could we be happier more abundant and healthier than our wildest dreams That's what Peak Vitality is all about It calls us to examine the thresholds of our thinking feeling and experiencing then go beyond what we believe we're capable of Includes chapters from bestselling authors such as Wayne Dyer Christiane Northrup Candace Pert Deepak Chopra Julia Cameron Riane Eisler Dean Ornish and many more Proceedings, American Philosophical Society (vol. 149, no. 4, 2005) , *Exploring Cause and Explanation* Cynthia L. European cities associated with the environmental movement pressures of urban redevelopment and the promotional strategies of cities competing in a global market But the European debate over urban green space has a long history dating back to Victorian concerns for the green lungs of the city to combat the health and social problems caused by rapid population and industrial growth This book explores the multiplicity of green space developments in the modern city ranging over parks and commons garden suburbs and the cities in the park allotment gardens green belts and national urban parks It is concerned not only with the different types of green space but the many influences shaping their evolution from international planning ideas to the rise of modern day sport and leisure and the effects of the transport revolution No less vital in this story is the interaction of the many actors involved in the often fractious political process of creating green spaces architects and planners politicians developers and other businessmen NGOs and local residents This volume is particularly concerned with contexts how international planning ideas are transmitted and adapted in different European cities how the construction of green space is affected by local power structures and relationships and how ordinary people perceive and use green spaces quite often at variance with official designs The European City and Green Space looks at these and other issues through the prism of four metropolises London Stockholm Helsinki and St Petersburg All represent different types of North European city yet each has experienced distinctive economic political and cultural trajectories whilst also facing powerful challenges and problems of similar kinds with regard to green space This volume examines how each has responded to them and what patterns emerge

Tewa Worlds Samuel Duwe, 2020-05-05 Tewa Worlds tells a history of eight centuries of the Tewa people set among their ancestral homeland in northern New Mexico Bounded by four sacred peaks and bisected by the Rio Grande this is where the Tewa after centuries of living across a vast territory reunited and forged a unique type of village life It later became an epicenter of colonialism for within its boundaries are both the ruins of the first Spanish colonial capital and the birthplace of the atomic bomb Yet through this dramatic change the Tewa have endured and today maintain deep connections with their villages and a landscape imbued with memory and meaning Anthropologists have long trekked through Tewa country but the literature remains deeply fractured among the present and the past nuanced ethnographic description and a growing body of archaeological research Samuel Duwe bridges this divide by drawing from contemporary Pueblo philosophical and historical discourse to view the long arc of Tewa history as a continuous journey The result is a unique history that gives weight to the deep past colonial encounters and modern challenges with the understanding that the same concepts of continuity and change have guided the people in the past and present and will continue to do so in the future Focusing on a decade of fieldwork in the northern portion of the Tewa world the Rio Chama Valley Duwe explores how incorporating Pueblo concepts of time and space in archaeological interpretation critically reframes ideas of origins ethnogenesis and abandonment It also allows archaeologists to appreciate something that the Tewa have always known that there are strong and deep ties that extend beyond modern reservation boundaries
