The Transformation Of Care In European Societies:

The Transformation of Care in European Societies Margarita Leon, 2016-04-30 This book aims to explore the nature and extent of the care deficit problem in European societies and how effective the different care systems are in dealing with these problems through policy innovation It combines theoretical and conceptual debates cross national comparisons and analytically driven case studies

Care and Social Integration in European Societies Birgit Pfau-Effinger, Birgit Geissler, 2005-09-07 This book provides invaluable descriptions and comparative analyses of the now complex and highly varied arrangements for the care of children disabled and older people in Europe set within the context of changing labour markets and welfare systems It includes analyses of the modernisation of informal care and new forms of informal care topics often neglected in the literature Issues of gender family change social integration and citizenship are all explored in a series of chapters that report on original empirical cross national research All contributors are high ranking experts involved in the COST A13 Action Programme funded by the European Union Care and social integration in European societies is essential reading for social policy and sociology academics particularly those who are interested in comparative policy analysis gender labour markets and families It is also recommended reading for graduate level students in these fields and policy makers for whom the book provides a unique resource on the latest European developments in this critical policy area

The Fate of Social Modernity Ingo Bode, 2024-05-02 This is an open access title available under the terms of a CC BY NC ND 4.0 License It is free to read download and share on Elgaronline.com This thoroughly original book provides a comprehensive overview of the development of welfare arrangements and their wider context in Western Europe Using the concept of social modernity Ingo Bode investigates current challenges to these arrangements and examines prospects for progressive welfare reform

The Oxford Handbook of Family Policy Over the Life Course Mary Daly, Birgit Pfau-Effinger, Neil Gilbert, Douglas J. Besharov, 2023 Drawing on a multidisciplinary group of experts from many countries this Handbook is intended to be a reference work that provides students and scholars in policy related disciplines a wide ranging perspective on the diverse ways that family policies respond to modern issues and trends over the life course The Handbook is divided into two main parts The first part offers a panoramic introduction to the setting and issues which contemporary family policies have been designed to address The second part and main body of the volume is organized around four benchmark periods that encompass the main stages of the family life cycle and social policies that are called into play during these stages

Politicising and gendering care for older people Anca Dohotariu, Ana Paula Gil, Lubica Volanská, 2024-06-25 This book offers a new critical framework for understanding the processes of politicising and gendering care for older people and their manifestations in several European contexts It interrogates how care for older adults varies across time and place while searching for an in depth comprehension of how it becomes an arena of political struggle and the object of public policy in different countries and at various societal and political levels It brings together multidisciplinary contributions that examine

the issue of care for older people as a political concern from many angles such as problematising care needs long term care policies home care services institutional services and family care The contributions reveal the diversity of situations in which the processes of politicising and gendering care for older adults overlap contradict or reinforce each other while leading to increased gender inequalities on different levels Social Services Disrupted Flavia Martinelli, Anneli Anttonen, Margitta Mätzke, 2017-11-24 This book revives the discussion on public social services and their redesign with a focus on services relating to care and the social inclusion of vulnerable groups providing rich information on the changes that occurred in the organisation and supply of public social services over the last thirty years in different European places and service fields Despite the persisting variety in social service models three shared trends emerge public sector disengagement vertical re scaling of authority and horizontal re mix in the supply system The consequences of such changes are evaluated from different perspectives governance social and territorial cohesion labour market gender and are eventually deemed disruptive in both economic and social terms The policy implications of the restructuring are also explored This title will be Open Access on Elgaronline com **From Crisis to Catastrophe** Mignon Duffy, Amy Armenia, Kim Price-Glynn, 2023-05-12 The COVID pandemic has shaken the material and social foundations of the world more than any event in recent history and has highlighted and exacerbated a longstanding crisis of care While these challenges may be freshly visible to the public they are not new Over the last three decades a growing body of care scholarship has documented the inadequacy of the social organization of care around the world and the effect of the devaluation of care on workers families and communities In this volume a diverse group of care scholars bring their expertise to bear on this recent crisis In doing so they consider the ways in which the existing social organization of care in different countries around the globe amplified or mitigated the impact of COVID They also explore the global pandemic's impact on the conditions of care and its role in exacerbating deeply rooted gender race migration disability and other forms of inequality Ageing in Contexts of Migration Ute Karl, Sandra Torres, 2015-08-20 Population ageing and the globalisation of international migration are challenging the research agendas of social scientists around the world and posing numerous challenges for policy makers and practitioners whose goal is to formulate and design high quality and user friendly policies and services Both of these phenomena have brought for example attention to the fact that more and more people around the world are ageing in countries other than those where they were born The fact that elderly care sectors around the world need to recruit staff if they are to handle the growing number of older people that will need their services is also something that has been discussed when population ageing and the globalisation of international migration have been debated The elderly care sector's reliance on people with migrant backgrounds has namely increased as a result of these phenomena This collection is therefore situated at the intersection of ageing and migration studies and takes into account the various issues with which this intersection is concerned The chapters in this volume are written by established researchers in the field of ageing and migration around the world The

collection explores these issues in three sections Elderly care regimes and migration regimes national perspectives Ageing in contexts of migration a multifaceted phenomenon Elderly care and migration The expert contributions in this volume address the array of issues associated with the study of ageing old age and elderly care in contexts of migration *The COVID-19 Pandemic and Older Adults* Edward Alan Miller, 2022-04-19 The COVID 19 pandemic has disrupted life globally through virus related mortality and morbidity and the social and economic impacts of actions taken to stop the virus spread It became evident early on during the pandemic that older adults are especially vulnerable to morbidity and mortality from COVID 19 and the adverse consequences of strategies taken to mitigate its effects While no more likely to become infected than younger populations the risk for hospitalization and death rises considerably with age Residents of long term care facilities have been among the hardest hit The pandemic has brought many facets of ageism to the fore Community stay at home messages lockdowns social distancing requirements and visitation restrictions contributed to a concomitant epidemic in social isolation and loneliness Economic and social impacts have been dramatic so too has been the disproportionate hardship experienced by members of racial and ethnic minority communities This book reports original empirical research and perspectives on the ramifications of the COVID 19 pandemic for the older adult population and draws lessons for policy research and practice Key issues pertaining to the impact of COVID 19 on older adults and their families caregivers and communities are highlighted Four main areas are examined personal experiences with COVID 19 long term care system impacts end of life care and technology and innovation The chapters in this book were originally published as a special issue of the Journal of Aging Social Policy

Ethnicisation and Domesticisation Chiara Giordano, 2022-11-04 This book explores the interconnection of care gender and migration regimes and their impact on migrant domestic work in Europe in a comparative perspective The research presented in this book aims to understand the reasons not only of the increased concentration of migrants in the domestic and care sector but also of the significant differences between European countries Care gender and migration regimes are first operationalised in the form of three typologies Then the three typologies are used to investigate the ethnicisation of the domestic sector the proportion of migrants in the domestic sector compared to natives and the domesticisation of migrants the proportion of migrants in the domestic sector compared to other sectors The findings suggest that the three regimes have an effect and that this effect is greater when they are taken into account simultaneously

Care Loops and Mobilities in Nordic, Central, and Eastern European Welfare States Lena Näre, Lise Widding Isaksen, 2022-03-03 This edited volume discusses and analyses the impact of neoliberal policies and ideologies on public and private care practices in Nordic Central and East European welfare states Through new conceptualizations of care practices chapters take the reader directly into the homes workplaces and everyday life of urban and rural residents throughout Europe The book argues that common neoliberal responses to care crises are not about revaluing care but rather a normalization of precarious work as expressed in moving care from public institutions to families

within private homes Featuring contributions from eight countries chapters contribute to research on gender care migration and welfare policies by discussing how recent developments in global capitalism and neoliberal policies influence welfare policies and care arrangements in post egalitarian and post socialist societies in Europe Solidarity in Health and Social Care in Europe W. Arts,R. Muffels,2013-03-14 OF SOLIDARITY IN UK SOCIAL WELFARE Here then perhaps is a British version of solidarity in social welfare but early there are strong tensions between the powerfully liberal individualistic strands of the British understanding of the functions of the state and the socialistic or communitarian tendency of a commitment to universal welfare provision In the search for the roots of this understanding of welfare we shall survey first the historical background to these tensions in some early British political philosophers starting with Hobbes and ending with Mill We then consider the philosophical and social influences on the Beveridge Report itself and we will trace the emergence of the philosophy of the welfare state in the era following the Second World War Finally we consider the contemporary debate as it relates to the Third Way thinking of New Labour 2 A HISTORICAL SKETCH In the previous section we observed that the philosophy underlying the Beveridge Report could be described as liberal collectivism What are the historical antecedents of this strange amalgam of individualism and collectivism Within the short scope of this chapter any account of the philosophical history must be little more than a sketch but we can perhaps understand most debates in British socio political thought as a continuing dialogue with the well known claim of Thomas Hobbes in Leviathan that all political institutions are founded on egoistic motives Long-Term Care Reforms in OECD Countries Cristiano Gori,Jose-Luis Fernandez,Raphael Wittenberg,2016-06-01 Since the early 1990s long term care policies have undergone significant transformations across OECD countries In some countries these changes have responded to the introduction of major policy reforms while in others significant transformations have come about through the accumulation of incremental policy changes The book brings together evidence from over 15 years of care reform to examine changes in long term care systems occurring in OECD countries It discusses and compares key changes in national policies and examines the main successes and failures of recent reforms Finally it suggests possible policy strategies for the future in the sector With contributions from a wide range of experts across OECD countries this book is essential reading for academics researchers and policy makers in the field of long term care policy The Uses of Social Investment Anton Hemerijck,2017-05-26 The Uses of Social Investment provides the first study of the welfare state under the new post crisis austerity context and associated crisis management politics to take stock of the limits and potential of social investment It surveys the emergence diffusion limits merits and politics of social investment as the welfare policy paradigm for the 21st century seen through the lens of the life course contingencies of the competitive knowledge economy and modern family hood Featuring contributions from leading scholars in the field the volume revisits the intellectual roots and normative foundations of social investment surveys the criticisms that have leveled against the social investment perspective in theory and policy practice and presents empirical evidence of social investment

progress together with novel research methodologies for assessing socioeconomic rates of return on social investment Given the progressive admittedly uneven diffusion of the social investment policy priorities across the globe the volume seeks to address the pressing political question as to whether the social investment turn is able to withstand the fiscal austerity backlash that has re emerged in the aftermath of the global financial crisis *European Societies in Transition* Dan Sandu,2010 The contributions in this volume on social care and welfare disadvantaged groups or individuals are intended to be useful in the Eastern European social context to those who experienced or study the communist rule The transition in Eastern societies is fast paced sometimes people oppose it or refuse to be involved Rules are firm and imposed according to already established models in Western European countries Society tends to become more ferocious in content but more accessible through media and democratic liberties Changes are very swift and need greater attention because of the fundamental and structural nature of transformations in an age of transition Handbook of European Societies Stefan Immerfall,Göran Therborn,2009-12-01 European integration is one of the most ambitious and socially far reaching developments in world politics and in world economics Against growing opposition and despite increasing social heterogeneity the European Union continues to expand and to acquire new competences But to what extent is the self proclaimed ever closer union among the peoples of Europe a social reality In which ways is the political European project anchored in social developments How does social change impinge upon political integration Societal trends in multi cultural multi ethnic multi lingual and socially diverse Europe have never been studied systematically Handbook of European Societies Social Transformations in the 21st Century sets to rectify this neglect of societal developments in Europe providing a groundwork for the sociology of European integration The book portrays social life and social relations in the enlarged Europe and gives a perspective on the European Union as an evolving social entity Handbook of European Societies is a pioneering source book analyzing the current social patterns on the continent It covers a representative selection of major topics of social concern and sociological relevance such as Collective Action Consumption Identity Power Structure Sexuality Stratification and Well being Each contribution probes key developments in a strictly comparative manner The Handbook thus offers a detailed look into the intricacies of the national societies of Europe and into the prospect of an emerging European society The Editors have enlisted leading researchers to synthesize existing knowledge and to make use of many different data sources in a straight forward style The contributions stay away from jargon simple labeling and sweeping assertions Instead they provide solid and accessible information on a wide variety of social trends and processes within and across European societies *The Sustainability of Health Care Systems in Europe* Badi H. Baltagi,Francesco Moscone,2021-03-22 This volume contains an Open Access Chapter This book provides a comprehensive understanding of the sustainability of health systems in Europe Furthermore it includes an introduction on how EU action in supporting health care policies in the EU Member States both looking at implemented actions and describing current priorities for the future

Ageing in the Mediterranean Joseph Troisi, Hans-Joachim von Kondratowitz, 2013 At a time of extreme globalisation Ageing in the Mediterranean fills a key void in international literature on ageing societies This important and timely volume brings together a distinguished set of international scholars who provide rich information about the social economic political and historical factors responsible for shaping ageing policy in the Mediterranean region It is a regional handbook that highlights the idiosyncrasies of overlapping ageing issues in one particular territory and presents a range of key issues and concerns including migration care giving employment and health care amongst others whilst providing rich data from various countries such as Israel Italy Lebanon Malta Portugal Tunisia and Turkey Ageing in the Mediterranean will be warmly welcomed by researchers in social and public policy gerontology and geriatrics welfare economics and health care It will also be of interest to policy makers and NGOs involved in welfare and social care services provided by publisher

Ethnomorality of Care Agnieszka Radziwinowiczówna, Anna Rosińska, Weronika Kloc-Nowak, 2018-07-17 What happens when the parents of migrants age and need care in mobile and aging societies Ethnomorality of Care acts as a window in sharing how physical distance challenges family centered elderly care by juxtaposing transnational families with non migrant families A novel approach that explores intentions and moral beliefs concerning elderly care alongside practical care arrangements Ethnomorality of Care presents a concept of care which recognizes how various factors shape the experience of care including national regional and local contexts economic inequalities gender care and migration regimes Based on the findings of a multi sited research carried out between 2014 and 2017 in Poland and the UK this perceptive volume also seeks to demonstrate how researchers and practitioners can use ethnomorality of care approach to examine non migrant families and other types of care Helping readers to better understand the lived experience of care receivers and givers beyond kinship care Ethnomorality of Care will appeal to graduate students researchers policy makers and care practitioners interested in fields such as migration studies transnational studies and social and cultural gerontology Long-Term Care and Older People in Western Europe Eloísa del Pino, Francisco Javier Moreno-Fuentes, 2025-06-30 Based on a comparative study covering 15 Western European countries this edited volume examines the responses of long term care homes for older people to the COVID 19 pandemic It analyses the preparedness of governments and residences and the structural weaknesses revealed and exacerbated by the crisis such as staff shortages the precariousness of employment in the sector and the deficient coordination between the health and caring sectors By examining the governance structures of the care home sector and their performance before and during the crisis the book highlights the institutional organisational and management challenges facing care homes both in continuing to provide services to an increasingly ageing population and in the event of future public health crises
