History Maker Chinedum

Jennifer G. Cooke,2015-11-10 Two important dynamics have driven political and social change in sub Saharan Africa during the past 25 years New religious trends have emerged within the main faiths of Islam and Christianity in particular the emergence of more charismatic assertive forms of religious expression Meanwhile political space has opened in scores of countries as one party rule has given way to a process of democratization yet to be completed Based on their field work in each country the authors examine the various ways in which religious actors have chosen to engage with the state They also consider how governments and political actors respond to and seek to manage these interactions **Technology Integration and Transformation of Elections in Africa** Cosmas Uchenna

Nwokeafor,2017-02-22 Technology Integration and Transformation of Elections in Africa serves as a standard textbook and a reference guide to students in both undergraduate and graduate programs in tertiary institutions where elaborate discourse on the impact of technology to political elections and advancements across the continental Africa have continued to gain weight The rationale in publishing this textbook far more outweighs its timeliness but speaks highly of its significance because it deals with technology integration and transformation of elections in Africa a region whose elections has been continuously marred by corruption and incessant fraudulent activities perpetrated by both the citizens various political parties and the umpires whose responsibilities were to present a credible election Elections in Africa draws international attention and the news is seldom good For instance the elections in Kenya fueled violence that left 1 500 dead and 300 000 displaced while elections in Zimbabwe suffered from massive fraud and brutal suppression In Nigeria in 1999 and 2011 the result of the elections were in shambles and some of the parties that lost the election took to the street resulting in the death of significant percentage of innocent people **Gender and Development in Nigeria** Funmi Soetan,Bola

Akanji,2018-08-15 In this edited volume Nigerian scholars from a variety of disciplines examine the relationship between gender and Nigeria s pathways of development in the last 100 years of its nationhood This analysis is set against the background of unequal power dynamics between women and men and specifically the ways in which social cultural political and economic construction of gender has influenced Nigeria s course of development through her colonial and post colonial history The influence of the nature of economic governance policy and institutional frameworks the nature of resource availability and re distribution between women and men in terms of goods and services knowledge and skills policies and budgets and the outcomes and impacts for women and men are seen in terms of women s economic empowerment equal participation and development benefits This rich collection of empirical works therefore provides not just the rhetoric but the

evidence to indict gender power relations in Nigeria especially at the institutional level This volume unpacks and explores this recurrent problem with a the goal of identifying new pathways for gender relations **Spaces of Insurgency** Elias Edise Courson,2025-05-15 The dominant scholarly and policy discourse on the insurgencies and conflicts in Nigeria s oil rich Niger Delta has been significantly shaped by the resource curse narrative This influential framework deeply integrated into wider debates concerning neoliberal globalization security and development as evidenced by the World Bank s 2011 World Development Report on security conflict and development positions the Niger Delta as a key case study The region s unique context a global oil and gas industry operating within a pluri ethnic federal system and a complex social field characterized by a range of contentious struggles from chieftainship disputes to electoral and territorial conflicts seemingly reinforces this narrative However this book argues for a necessary shift in focus towards a historical and spatial analysis of crisis from the 19th century to the present Such an approach it contends is crucial for understanding the deep seated and unresolved animosities that underpin contemporary tensions in the region By critically interrogating resource curse narratives in the Niger Delta conflicts insurgencies that have emerged since the 1990s this book demonstrates the layered and historically contingent nature of these conflicts Employing an interdisciplinary and comparative methodology it reflects on the specific ways in which political violence and the security development nexus in Africa a subject of considerable academic attention since the 1980s are situated within broader global patterns of knowledge production The central contribution of this book lies in its analysis of how spatial dynamics particularly the interplay between west and east and inter regional politics are fundamental to a more nuanced understanding of crisis in the Niger Delta and beyond **Conspiracy of Silence** Azukaoma Uche Osakwe,2022-08-28 Nigeria is rife with divisions particularly between Christians and Muslims Both groups aim at converting others and so they are in direct conflict with each other The bitterness came to a head when Goodluck Jonathan a Christian succeeded his former boss Musa Yar Adua upon his death Jonathan would serve as president from 2010 to 2015 The northern oligarchy was infuriated because they depended on rent and patronage which they knew would not be feasible under a Christian president They employed every tactic they could to destabilize his regime and in 2015 he lost the presidential election to the former military head of state Gen Muhammadu Buhari In this book the author lays out how politics in Nigeria is no longer based on what politicians can do for the community Rather the focus is on what they can do for themselves There is no more catching fish for God The religion they follow is based on stealing from the people Buhari was presented as an agent of change but his seven years in charge have only brought pain bloodshed anarchy and more turmoil Something must be done to move Nigeria away from the precipice Praise for Conspiracy of Silence Azukaoma Uche Osakwe s book is another in a growing list of sad narratives on the failure of leadership in Nigeria under the leadership of Muhammadu Buhari s Administration The book painstakingly combs through the many ills of Nigerian society under Buhari and the collapse of such institutions as the police army electoral body government officials and the various ethnic

nationalities He accuses these people of conspiring to stay mum amid terrible governance The author charges the citizenry as well as the Igbo Nation which he says are marginalized to buckle up and take what remains of their destiny in their own hands Jude Atupulazi editor in chief Fides Newspaper Awka Nigeria Conspiracy of Silence this book must necessarily take a long title It would indeed be difficult to capture the Muhammadu Buhari era as president of Nigeria with an elegantly titled book The simple reason is that the Buhari tenure was devoid of neither elegance nor finesse Conspiracy of Silence encapsulates this rather dark epoch in fine detail warts and all It s a racy report of Africa s giant caught in the vice grips of mediocrity and mendacity in equal measures It s stranger than fiction Steven Osuji columnist and former member of the editorial board The Nation Nigeria National Security, Democracy, and Good Governance in Postmilitary-Rule Nigeria, Volume Two Dr. Dan Mou, 2017-01-12 This book shows that the security economic political and social problems challenging national security democracy and good governance currently in Nigeria would get better or worse depending on what happens to the 71 percent of Nigerias population still living below the poverty line This is in spite of the billions of petrodollars that Nigeria garnered as revenue over the past few decades It reveals that one does not need to be a political prophet to predict that if these challenges are not successfully addressed through good governance and inclusive growth this country will witness worse civil disobedience violence revolts militancy breakdown of law and order more kidnappings and more of the citizens trying to check out of the country to other parts of the world in the future It concludes however that under such intense pressures the Government of Nigeria even if it is simply for its self preservation will be forced by the objective conditions to move against the interests of the dominant groups and classes in Nigeria These are the ones who have for long captured and hijacked state power and the resources of the country for their exclusive use There is this perception that Nigerians dont write and read This perception is deep seated even among intellectuals who see our authors as shallow researchers But Dr Dan Mou has debunked that myth and shown that Nigerians can write well researched and detailed books It is quite prophetic in its assessment of the Nigerian State Agbo Agbo deputy editor The Nation Dr Dan Mou has proven himself a world class scholar and an intellectual colossus His reputation as an internationally renowned public policy expert has continued to soar I congratulate him for these remarkable achievements Professor Justice Abdul Fatai Kuti first justice of Abuja High Court and former dean faculty of law University of Ado Ekiti Ekiti State of Nigeria Dr Mou is certainly one of the best scholars we have on the African continent As an educationist myself before I became a traditional ruler I agree totally with his analysis and conclusions I share the optimism Dr Mou has expressed that once the recommendations therein are adopted and meticulously implemented with proper monitoring and evaluation of such resultant policies and programmes Nigeria and indeed Africa would be able to solve most of these challenges HRH Alh Dr Sheban Audu Nizazo III Etsu Kwali Etsu Kwalis Palace Abuja Nigeria **Nigerian Pentecostalism and Development** Richard Burgess, 2020-04-06 This book examines the contributions both intentional and unintentional of Nigerian Pentecostal churches and NGOs to development

studying their development practices broadly in relation to the intersecting spheres of politics economics health education human rights and peacebuilding In sub Saharan Africa Pentecostalism is fast becoming the dominant expression of Christianity but while the growth and civic engagement of these churches has been well documented their role in development has received less attention The Nigerian Pentecostal landscape is one of the most vibrant in Africa Churches are increasingly assuming more prominent roles as they seek to address the social and moral ills of contemporary society often in fierce competition with Islam for dominance in Nigerian public space Some scholars suggest that the combination of an enchanted worldview an emphasis on miracles and prosperity teaching and a preoccupation with evangelism discourages effective political engagement and militates against development However Nigerian Pentecostalism and Development argues that there is an emerging movement within contemporary Nigerian Pentecostalism which is becoming increasingly active in development practices This book goes on to explore the increasingly transnational approach that churches take often seeking to build multicultural congregations around the globe for instance in Britain and the United States Nigerian Pentecostalism and Development Spirit Power and Transformation will be of considerable interest to scholars and students concerned with the intersection between religion and development and to development practitioners and policy makers working in the region
