The War 299 Days Book 8

John Pryor, Elizabeth M. Jeffreys

The War 299 Days Book 8:

Kissinger Niall Ferguson, 2016-09-27 From the bestselling author of *The Ascent of Money* and *The Square and the Tower* the definitive biography of Henry Kissinger based on unprecedented access to his private papers Winner of the Council on Foreign Relations Arthur Ross Book Award No American statesman has been as revered or as reviled as Henry Kissinger Once hailed as Super K the indispensable man whose advice has been sought by every president from Kennedy to Obama he has also been hounded by conspiracy theorists scouring his every telcon for evidence of Machiavellian malfeasance Yet as Niall Ferguson shows in this magisterial two volume biography drawing not only on Kissinger's hitherto closed private papers but also on documents from more than a hundred archives around the world the idea of Kissinger as the ruthless arch realist is based on a profound misunderstanding The first half of Kissinger's life is usually skimmed over as a quintessential tale of American ascent the Jewish refugee from Hitler's Germany who made it to the White House But in this first of two volumes Ferguson shows that what Kissinger achieved before his appointment as Richard Nixon's national security adviser was astonishing in its own right Toiling as a teenager in a New York factory he studied indefatigably at night He was drafted into the U S infantry and saw action at the Battle of the Bulge as well as the liberation of a concentration camp but ended his army career interrogating Nazis It was at Harvard that Kissinger found his vocation Having immersed himself in the philosophy of Kant and the diplomacy of Metternich he shot to celebrity by arguing for limited nuclear war Nelson Rockefeller hired him Kennedy called him to Camelot Yet Kissinger's rise was anything but irresistible Dogged by press gaffes and disappointed by Rocky Kissinger seemed stuck until a trip to Vietnam changed everything *The Idealist* is the story of one of the most important strategic thinkers America has ever produced It is also a political Bildungsroman explaining how Dr Strangelove ended up as consigliere to a politician he had always abhorred Like Ferguson's classic two volume history of the House of Rothschild Kissinger sheds dazzling new light on an entire era The essential account of an extraordinary life it recasts the Cold War world

The Age of the ΔPOMΩN John Pryor, Elizabeth M. Jeffreys, 2006-07-01 This volume examines the development and evolution of the war galley known as the Dromon and its relative the Chelandion from first appearance in the sixth century until its supercession in the twelfth century by the Galea developed in the Latin West Beginning as a small fully decked monoreme galley by the tenth century the Dromon had become a bireme the pre eminent war galley of the Mediterranean The salient features of these ships were their two banked oarage system the spurs at their bows which replaced the ram of classical antiquity their lateen sails and their primary weapon Greek Fire The book contextualizes the technical characteristics of the ships within the operational history of Byzantine fleets logistical problems of medieval naval warfare and strategic objectives Surviving Byzantine sources especially tactical manuals are subjected to close literary and philological analysis
