

The background of the image is a detailed painting of a ship's mast and rigging. The mast is a thick, dark wooden pole that runs diagonally from the bottom left towards the top right. It is surrounded by a complex network of ropes and pulleys. The sky is a mix of orange, yellow, and blue, suggesting a sunset or sunrise. The sea is dark and choppy. In the foreground, there are some wooden barrels or casks. The text box is a yellow rectangle with a black border, containing the title and a quote.

The Wine-Dark Sea Robert Aickman, 2014-08-05 Reading Robert Aickman is like watching a magician work and very often I'm not even sure what the trick was All I know is that he did it beautifully Neil Gaiman For fans of the BBC's *Inside Number 9* and *The League of Gentlemen* Aickman's strange stories his preferred term are constructed immaculately the neuroses of his characters painted in subtle shades He builds dread by the steady accrual of realistic detail until the reader realises that the protagonist is heading towards their doom as if in a dream First published in 1988 *The Wine Dark Sea* contains eight stories that build towards disturbing yet enigmatic endings including the classic story *Your Tiny Hand is Frozen* Of all the authors of uncanny tales Aickman is the best ever His tales literally haunt me his plots and his turns of phrase run through my head at the most unlikely moments Russell Kirk

The Wine-Dark Sea Within Dr. Dhun Sethna, 2022-06-07 A revisionist history of medicine in which blood plays the starring role Inspired by Homer's description of the ebb and flow of the wine dark sea the ancient Greeks conceived a back and forth movement of blood That false notion perpetuated by the influential Roman physician Galen prevailed for fifteen hundred years until William Harvey proved that blood circulates the heart pumps blood in one direction through the arteries and it returns through the veins Harvey's discovery revolutionized the life sciences by making possible an entirely new quantitative understanding of the cardiovascular system a way of thinking on which many of our lifesaving medical interventions today depend In *The Wine Dark Sea Within* cardiologist Dhun Sethna argues that Harvey's revelation inaugurated modern medicine and paved the way for groundbreaking advances from intravenous therapy cardiac imaging and stent insertions to bypass surgery dialysis and heart lung machines Weaving together three thousand years of global history following bitter feuds and epic alliances tragic failures and extraordinary advancements this is a provocative history by a fresh voice in popular science

Sailing the Wine-Dark Sea Thomas Cahill, 2010-04-21 NATIONAL BESTSELLER The bestselling author of *How the Irish Saved Civilization* takes us on a journey through the landmarks of art and bloodshed that defined Greek culture nearly three millennia ago A triumph of popularization extraordinarily knowledgeable informal in tone amusing wide ranging smartly paced *The New York Times Book Review* In the city states of Athens and Sparta and throughout the Greek islands honors could be won in making love and war and lives were rife with contradictions By developing the alphabet the Greeks empowered the reader demystified experience and opened the way for civil discussion and experimentation yet they kept slaves The glorious verses of the *Iliad* recount a conflict in which rage and outrage spur men to action and suggest that their bellicose society of gleaming metals and rattling weapons is not so very distant from more recent campaigns of shock and awe And centuries before Zorba Greece was a land where music dance and freely flowing wine were essential to the high life Granting equal time to the sacred and the profane Cahill rivets our attention to the legacies of an ancient and enduring worldview

The Caerleon Edition of the Works of Arthur Machen: The terror. The bowmen. The great return Arthur

Machen, 1923 *The Traditional Phrase in Homer* Richard Sacks, 1987 This study attempts to bridge the now classic gap between fixed form and functioning context which continues to limit our understanding of the Homeric phrase The first part of the study uses the presence of Homeric phrases in other Greek poetry especially the notoriously Homeric Theognis 237 254 to help identify potentially significant phrases The second part considers the epithets of Hector in an attempt to re-examine Parry's notion of traditional fixed epithets and their importance for understanding the Iliad and the Odyssey The author offers original interpretations of the workings of the traditional phrase in Homer and also of Theognis 237 254 and of the Iliad's much debated characterization of Hector Along the way Sacks suggests how his method may help with other problems including contested emendations in Homer the relationship of the Iliad and the Odyssey and the relationship between epic and other genres The central concern of the book however is the traditional artistry of Homer Homer's Traditional Art John Miles Foley, 2011-12-31 In recent decades the evidence for an oral epic tradition in ancient Greece has grown enormously along with our ever increasing awareness of worldwide oral traditions John Foley here examines the artistic implications that oral tradition holds for the understanding of the Iliad and Odyssey in order to establish a context for their original performance and modern day reception In Homer's Traditional Art Foley addresses three crucially interlocking areas that lead us to a fuller appreciation of the Homeric poems He first explores the reality of Homer as their actual author examining historical and comparative evidence to propose that Homer is a legendary and anthropomorphic figure rather than a real life author He next presents the poetic tradition as a specialized and highly resonant language bristling with idiomatic implication Finally he looks at Homer's overall artistic achievement showing that it is best evaluated via a poetics aimed specifically at works that emerge from oral tradition Along the way Foley offers new perspectives on such topics as characterization and personal interaction in the epics the nature of Penelope's heroism the implications of feasting and lament and the problematic ending of the Odyssey His comparative references to the South Slavic oral epic open up new vistas on Homer's language narrative patterning and identity Homer's Traditional Art represents a disentangling of the interwoven strands of orality textuality and verbal art It shows how we can learn to appreciate how Homer's art succeeds not in spite of the oral tradition in which it was composed but rather through its unique agency **From Bilateralism to Community Interest** Ulrich Fastenrath, 2011 This festschrift dedicated to Judge Bruno Simma traces the development of international law from regulating bilateral state to state relationships towards strengthening the entire international community by protecting human security the global environment and human rights It provides both theoretical and practical insights into these sometimes conflicting goals their basis in international law and the role played by international institutions charged with upholding these values and interests The work thus examines the mechanism by which international law contributes to the realization not only of individual State interests but the interests of the international community as a whole From this vantage point it looks at the various functions that international law fulfills in the

international community from law making and institution building towards adjudication and the securing of human rights Taken together the contributions to this book paints a detailed but nevertheless comprehensive picture of the realization of community interest in contemporary international law As professor and judge Bruno Simma has contributed to all of these tasks providing ground breaking theoretical work serving in the International Law Commission and in the Committee for Economic Social and Cultural Rights and finally as a judge at the International Court of Justice in The Hague The three introductory chapters express this unity of life and work The Wine Dark Sea Henriette Mertz,1964 A New English Dictionary on Historical Principles James Augustus Henry Murray,1928 Sailing the Wine-dark Sea Eric H. Cline,1994 A reissue of Eric H Cline s highly regarded study of trade in the Late Bronze Age Aegean first published in 1994 and out of print since 2000 The monograph is composed of three principal parts 1 an analytical section discussing the trade and contacts which occurred between the Aegean Italy Egypt and the Near East during the latter half of the second millennium BC and the social economic and cultural implications of such contacts 2 first a catalogue of literary and pictorial references to the LBA Aegean found in outside areas primarily Egypt and the Near East with transliterations and translations of the appropriate texts and second a compilation of the references to and loanwords from other areas of the Mediterranean found in the Linear B texts in the Aegean and 3 a catalogue by object type of all the Orientalia and Occidentalia found in LBA contexts within the Aegean area The monograph utilizes the catalogues in combination with previously published works by a variety of scholars to provide a detailed analysis of the trade and contacts between the LBA Aegean Italy Egypt and the Near East The work is divided into six sections each consisting of a series of interlinked essays Section One provides an introduction to the topic a brief overview of the previous scholarship in this area and a discussion of the chronological problems involved Section Two consists of an initial chapter discussing LBA trade and contact between the Aegean Italy Egypt and the Near East by centuries followed by chapters discussing trade between the LBA Aegean and individual Mediterranean countries Section Three contains discussions of the trade mechanisms involved the trade routes merchant nationalities goods motivations and partnerships plus a brief look at the Ulu Burun Kas and Cape Gelidonya shipwrecks Section Four presents an overview of the conclusions reached by this study and reiterates that the current work presents much raw data and some preliminary observations but is only the tip of the iceberg in terms of tapping the wealth of information which may be extracted from the accompanying catalogues
