Robocut User Guide:

Typeset in the Future Dave Addey, 2018-12-11 A designer's deep dive into seven science fiction films filled with gloriously esoteric nerdery and observations as witty as they are keen. *Wired In Typeset in the Future* blogger and designer Dave Addey invites sci fi movie fans on a journey through seven genre defining classics discovering how they create compelling visions of the future through typography and design. The book delves deep into 2001 A Space Odyssey, Star Trek The Motion Picture, Alien, Blade Runner, Total Recall, WALL E and Moon studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens and ephemera plus original interviews with Mike Okuda, Star Trek, Paul Verhoeven, Total Recall and Ralph Eggleston and Craig Foster, Pixar. *Typeset in the Future* is an obsessively geeky study of how classic sci fi movies draw us in to their imagined worlds.
