Maier, 2013-10-24 Pauline Christianity sprang to life in a world of imperial imagery In the streets and at the thoroughfares in the market places and on its public buildings and monuments and especially on its coins the Roman Empire's imperial iconographers displayed imagery that aimed to persuade the Empire's diverse and mostly illiterate inhabitants that Rome had a divinely appointed right to rule the world and to be honoured and celebrated for its dominion Harry O Maier places the later often contested letters and theology associated with Paul in the social and political context of the Roman Empire's visual culture of politics and persuasion to show how followers of the apostle visualized the reign of Christ in ways consistent with central themes of imperial iconography They drew on the Empire's picture language to celebrate the dominion and victory of the divine Son Jesus to persuade their audiences to honour his dominion with praise and thanksgiving Key to this imperial embrace were Colossians Ephesians and the Pastoral Epistles Yet these letters remain neglected territory in consideration of engagement with and reflection of imperial political ideals and goals amongst Paul and his followers This book fills a gap in scholarly work on Paul and Empire by taking up each contested letter in turn to investigate how several of its main themes reflect motifs found in imperial images God and Mystery in Words David Brown, 2008-03-20 In this wide ranging book that moves from Greek drama to modern poetry David Brown explores the ways in which the poetry and drama of the past were rooted in religious questions He posits that their creative potential needs to be rediscovered to bring present day worship and experience of God alive *The Architect*, 1869 *Architect*, 1869 **The Illustrated London News**, 1958 **The Masks of Menander** David Wiles, 2004 This book provides a detailed analysis of the conventions and techniques of performance characteristic of the Greek theatre of Menander and the subsequent Roman theatre of Plautus and Terence Drawing on literary and archaeological sources and on scientific treatises David Wiles identifies the mask as crucial to the actor's art and shows how sophisticated the art of the mask maker became He also examines the other main elements which the audience learned to decode costume voice movement etc In order to identify features that were unique to Hellenistic theatre he contrasts Greek new comedy with other traditions of masked performance A substantial part of the book is devoted to Roman comedy and shows how different Roman conventions of performance rest upon different underlying assumptions about religion marriage and class **Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards**, 2004 **Arts & Humanities Citation Index**, 1984 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world's leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals **Masks in Theatre** Lindley Powers Spencer, 1968 **Classical Greek Theatre Masks**, 2002 **The Theatre Crafts**

Book of Make-up, Masks, and Wigs C. Ray Smith, 1977 **Faces in the Frame** Mieke Paulsen Bahmer, 2015 Satyric and comedic masks in addition to lively seeming heads that could almost be masks appear with pattern like regularity wherever the Romans had a foothold however the near instinctive impulse to assign a straightforward Hellenistically derived Dionysiac message to the borders where these faces reside has rendered both masks and heads almost invisible to further iconographic study The masks are more thoroughly examined as remnants of Classical theatre than in studies of antique mosaics while the heads that supplant them are treated neither in theatrical studies nor aside from stylistic analyses in art historical scholarship The assumption that satyrs and their depictions in the Roman world retained the same meanings and functions that had been given to them by their Greek originators ignores fundamental distinctions between the two cultures This study follows in the tradition of scholars who have jettisoned the belief that iconological interpretation inevitably accompanies iconographic appropriation This study uses the distinctly Roman cultural background that led to the use of masks as border motifs in early imperial Roman mosaics and the ways in which that cultural heritage may have influenced the a preference for more lifelike and idealized heads instead of masks to gain insight into the role and function of the supernatural wilderness in Roman life and iconography *A Bibliography on the Mask* Kay Print Janney, 1989 **Mask Makers and Their Craft** Deborah Bell, 2010 This book explores the motivations and challenges of artists working to bring the traditional methods and conventions of mask making Topics include the ways in which mask artists and performers maintain a sense of universality despite varying customs and the ways in which traditional approaches in mask artistry continue to influence commercial mask performance ventures Provided by publisher
