**Novice Teachers Embracing Wobble in Standardized Schools** Bob Fecho, Dawan Coombs, Trevor Thomas Stewart, Todd S. Hawley, 2020-09-30 A critical resource for pre service and practicing teachers this book addresses what happens when new teachers try to enact inquiry based and dialogical pedagogy within standardized schools Exploring the narratives from beginning ELA and humanities teachers when they encounter challenges and obstructions this book explores moments of wobble key events that called attention to practice in the context of inflexible schooling systems that the teachers shared with their peers via an oral inquiry process OIP to help them unpack and understand their experiences This book advocates for the continued use and enhancement of mentoring and induction initiatives particularly those that recognize the expressed concerns of novice teachers no matter what their pedagogical stance might be By sharing novice teachers wobble stories and their outcomes this book provides a pathway for teachers continued self reflection and growth for the duration of their careers The authors offer a reflective adaptable and easy to use process that places teachers in control of their own professional learning The beliefs and structures examined in this text support the intentions of all teachers who work from a learning centered perspective and wish to take some ownership of their professional development

responsive self defence if an armed attack occurs and interceptive necessity defence if a grave and urgent threat of an armed attack occurs For without a clarifying and modernising revision the concept of defence will become irreparably blurred until it is completely dissolved into the ever shifting sands of war     Dictionary of English Literature William Davenport
