The Transformation of Human Rights Fact-finding Philip Alston,Sarah Knuckey,2016 Fact finding is at the heart of human rights advocacy and is often at the center of international controversies about alleged government abuses In recent years human rights fact finding has greatly proliferated and become more sophisticated and complex while also being subjected to stronger scrutiny from governments Nevertheless despite the prominence of fact finding it remains strikingly under studied and under theorized Too little has been done to bring forth the assumptions methodologies and techniques of this rapidly developing field or to open human rights fact finding to critical and constructive scrutiny The Transformation of Human Rights Fact Finding offers a multidisciplinary approach to the study of fact finding with rigorous and critical analysis of the field of practice while providing a range of accounts of what actually happens It deepens the study and practice of human rights investigations and fosters fact finding as a discretely studied topic while mapping crucial transformations in the field The contributions to this book are the result of a major international conference organized by New York University Law School s Center for Human Rights and Global Justice Engaging the expertise and experience of the editors and contributing authors it offers a broad approach encompassing contemporary issues and analysis across the human rights spectrum in law international relations and critical theory This book addresses the major areas of human rights fact finding such as victim and witness issues fact finding for advocacy enforcement and litigation the role of interdisciplinary expertise and methodologies crowd sourcing social media and big data and international guidelines for fact finding

Access to Justice in Rural Communities Daniel Newman,Faith Gordon,2023-05-04 This book offers insight on access to justice from rural areas in internationally comparable contexts to highlight the diversity of experiences within and across rural areas globally It looks at the fundamental questions for people s lives raised by the issue of access to justice as well as the rule of law It highlights a range of social geographic and cultural issues which impact the way rural communities experience the justice system throughout the world with chapters on Australia Canada England Ireland Kenya Northern Ireland South Africa Syria Turkey the USA and Wales Each chapter explores three questions 1 How do people experience the institutions of justice in rural areas and how does this rural experience differ to an urban experience 2 What impact have

changes in policy had on the justice system in rural areas and have rural and urban areas been affected in different ways 3

What impact does the law have on people's lives in rural areas and what would rural communities like to be better understood about their experience of the justice system By bringing in the voices and experiences of those who are often ignored or sidelined by justice systems this book will set out an agenda for ensuring social justice in legal systems with a focus on protecting marginalised groups Hot Topics in the Legal Profession - 2012 Steven Alan Childress, 2012-01-29

Current important events in the U S legal profession and legal ethics with useful research and analysis of the rules and the profession's current status are explored by Tulane law students from an advanced ethics seminar The collection is edited by Tulane legal ethics professor Steven Alan Childress and he previews in his Foreword the students' explorations of the big stories of 2011 Purchase of this book benefits Tulane's Public Interest Law Foundation a nonprofit student group that funds public interest placements and indigent client representations throughout the country The timely topics include prosecutorial relationships with public defenders bar discipline for behavior outside the practice of law false guilty pleas the capital defense of Jared Loughner Justice Scalia's seminar for conservative congressmembers sensitivity to cultural competence legal outsourcing and competition the dilemma of student debt in a slowed legal economy the practice of law by legal websites like LegalZoom and the advocate witness rule **ABA Journal**, 1997-03 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association *Engines of Anxiety* Wendy Nelson Espeland, Michael Sauder, Wendy Espeland, 2016-05-09

Students and the public routinely consult various published college rankings to assess the quality of colleges and universities and easily compare different schools However many institutions have responded to the rankings in ways that benefit neither the schools nor their students In *Engines of Anxiety* sociologists Wendy Espeland and Michael Sauder delve deep into the mechanisms of law school rankings which have become a top priority within legal education Based on a wealth of observational data and over 200 in depth interviews with law students university deans and other administrators they show how the scramble for high rankings has affected the missions and practices of many law schools *Engines of Anxiety* tracks how rankings such as those published annually by the U S News World Report permeate every aspect of legal education beginning with the admissions process The authors find that prospective law students not only rely heavily on such rankings to evaluate school quality but also internalize rankings as expressions of their own abilities and flaws For example they often view rejections from first tier schools as a sign of personal failure The rankings also affect the decisions of admissions officers who try to balance admitting diverse classes with preserving the school's ranking which is dependent on factors such as the median LSAT score of the entering class Espeland and Sauder find that law schools face pressure to admit applicants with high test scores over lower scoring candidates who possess other favorable credentials *Engines of Anxiety* also reveals how rankings have influenced law schools' career service departments Because graduates' job placements play a major role in the rankings

many institutions have shifted their career services resources toward tracking placements and away from counseling and network building In turn law firms regularly use school rankings to recruit and screen job candidates perpetuating a cycle in which highly ranked schools enjoy increasing prestige As a result the rankings create and reinforce a rigid hierarchy that penalizes lower tier schools that do not conform to the restrictive standards used in the rankings The authors show that as law schools compete to improve their rankings their programs become more homogenized and less accessible to non traditional students The ranking system is considered a valuable resource for learning about more than 200 law schools Yet *Engines of Anxiety* shows that the drive to increase a school s rankings has negative consequences for students educators and administrators and has implications for all educational programs that are quantified in similar ways

How to Get Into Top Law Schools 5th Edition Richard Montauk,2011-08-02 The most authoritative guide for law students now revised and updated Richard Montauk an administrations insider and lawyer demystifies the law school application process and provides the tools to ace every step along the way Based on and including exclusive interviews with admissions officers Montauk delivers a candid view of what leading law schools look for in an applicant He also gives applicants solid advice on developing marketing strategies writing winning essays maximizing financial aid and updating credentials to better match that ideal profile

Yale Law School and the Sixties Laura Kalman,2006-05-18 The development of the modern Yale Law School is deeply intertwined with the story of a group of students in the 1960s who worked to unlock democratic visions of law and social change that they associated with Yale s past and with the social climate in which they lived During a charged moment in the history of the United States activists challenged senior professors and the resulting clash pitted young against old in a very human story By demanding changes in admissions curriculum grading and law practice Laura Kalman argues these students transformed Yale Law School and the future of American legal education Inspired by Yale s legal realists of the 1930s Yale law students between 1967 and 1970 spawned a movement that celebrated participatory democracy black power feminism and the counterculture After these students left the repercussions hobbled the school for years Senior law professors decided against retaining six junior scholars who had witnessed their conflict with the students in the early 1970s shifted the school s academic focus from sociology to economics and steered clear of critical legal studies Ironically explains Kalman students of the 1960s helped to create a culture of timidity until an imaginative dean in the 1980s tapped into and domesticated the spirit of the sixties helping to make Yale s current celebrity possible
