emergence of the J horror phenomenon in the late 1990s with the opening and critical success of films such as Hideo Nakata's *The Ring* (1998) or Takashi Miike's *Audition* (1999) Japanese horror has been a staple of both film studies and Western culture. Scholars and fans alike throughout the world have been keen to observe and analyze the popularity and roots of the phenomenon that took the horror scene by storm producing a corpus of cultural artefacts that still resonate today. Further, Japanese horror is symptomatic of its social and cultural context celebrating the fantastic through female ghosts, mutated lizards, posthuman bodies and other figures. Encompassing a range of genres and media including cinema, manga, video games and anime, this book investigates and analyzes Japanese horror in relation with trauma studies including the figure of Godzilla, the non-human via grotesque bodies and hybridity with Western narratives including the linkages with Hollywood, thus illuminating overlooked aspects of this cultural phenomenon.

Gyo, Vol. 1 Junji Ito, 2003 Recommended for mature readers May contain graphic or disturbing imagery

In the Dust of This Planet Eugene Thacker, 2011-08-26 1 Amazon Best Seller in Philosophy Criticism The world is increasingly unthinkable: a world of planetary disasters, emerging pandemics and the looming threat of extinction. In this book Eugene Thacker suggests that we look to the genre of horror as offering a way of thinking about the unthinkable world. To confront this idea is to confront the limit of our ability to understand the world in which we live: a central motif of the horror genre. In *In the Dust of This Planet* explores these relationships between philosophy and horror. In Thacker's hands philosophy is not academic logic chopping; instead, it is the thought of the limit of all thought, especially as it dovetails into occultism, demonology and mysticism. Likewise, Thacker takes horror to mean something beyond the focus on gore and scare tactics but as the underappreciated genre of supernatural horror in fiction, film, comics and music. This relationship between philosophy and horror does not mean the philosophy of horror; if anything, it means the reverse: the horror of philosophy, those moments when philosophical thinking enigmatically confronts the horizon of its own existence. For Thacker, the genre of supernatural horror is the key site in which this paradoxical thought of the unthinkable takes place. The cover of *In the Dust of This Planet* can be seen in a New York gallery on a banner at the 2014 Climate Change march in New York and on Jay Z's back promoting *Run*. The book influenced the writers of the US TV series *True Detective* and has been lambasted by ex-Fox News broadcaster Glenn Beck in this podcast: https://www.youtube.com/watch?v=2IW8OK4_1gQ
