

100% Effective Keyword Research Strategy

STEP 01

Define Goals

One goal of keyword research may be to increase organic traffic to the website by targeting high-volume keywords relevant to the business.

Brainstorm Seed Keywords

If the business is an online shoe store, seed keywords could include "running shoes," which is a broad and commonly searched term.

STEP 02

STEP 03

Use Keyword Research Tools

Utilize Google Keyword Planner to gather data on search volume and related keywords for the seed keyword "running shoes."

Analyze Competitor Keywords

Identify a top competitor in the industry, such as an established online shoe retailer, and analyze the keywords they are targeting, such as "best running shoes for beginners" or "discount running shoes."

STEP 04

STEP 05

Evaluate Keyword Relevance

Review the gathered keywords and assess their relevance to the business's offerings. Consider if the keywords accurately represent the types of running shoes the business sells and if they align with the target audience's intent.

Consider Long-Tail Keywords

Instead of targeting the broad keyword "running shoes," consider a long-tail variation like "women's lightweight running shoes with arch support," which is more specific and captures a niche audience.

STEP 06

STEP 07

Refine and Prioritize

Refine the keyword list by eliminating irrelevant or low-performing keywords and prioritize those with higher relevance and search volume, such as focusing on keywords related to specific shoe categories or unique selling points.

smaller budgets Microsoft Advertising presents a fantastic opportunity to generate search leads at a relatively lower cost and that's something all advertisers should take note of. Microsoft Advertising's Audience Network Is A Hidden Gem That Brings A Lot Of Value. Programmatic Offerings Microsoft Ads is Microsoft's self-serve advertising platform that allows advertisers to build campaigns and target users across Microsoft's Search and Audience Network. Although it started off small, Microsoft's search engine has continued to grow in Google's shadow and now, according to ComScore, Bing and its partners make up a combined 39% of the US desktop search market. In fact, if you're running a paid ads campaign, it could be a mistake to ignore Bing and all the possibilities it can offer you. Depending on what you're selling and who you're targeting, Bing could be the missing piece of the puzzle for your marketing strategy. Here's why. As of March 2021, Bing hit 1.038 billion unique monthly visitors worldwide. This figure includes all web visits from desktop and mobile. There are approximately 82.6 million Bing searches per day. There are 14.6 billion PC searches made on Bing every month. In 2020, revenue for Microsoft search advertising amounted to 7.74 billion. In the United States, Bing ranked 24 in terms of traffic. Seems like it's worth paying attention to, right? Google search statistics show that Google dominates the search engine market with Bing placing only second. However, this has not stopped Bing from amassing millions of unique PC users and generating billions of search queries. This year, people aren't going to be spending their money in brick and mortar shops, restaurants, bars, and clubs like they did in the past. In 2021, people are going to continue spending money online. So there's no better time than now to present them with your offers. But the problem is, you can't just throw up an ad and expect to be in the profit. Although Microsoft Ads is a very user-friendly platform, there are some details that you must pay attention to if you want to see success. We Take Pride In Presenting Microsoft Ads Training Guide. Microsoft Ads training encompassing everything you need to know to get started with Microsoft Ads and optimize your campaigns for maximum profits. *Pay Per Click advertising ,*
