Dead Lee's Family Friendly Guide To Haunted Chicago John Petz, 2015-07-21 My Haunted Chicago book series turns 10 years old this year, Oct 2015, and as part of that celebration, I'm releasing this fan-requested special edition ahead of the regular release due out later this year. For years, you people have asked for a family-friendly entry into this series, so here it is, almost completely devoid of my white charming personality, twisted sense of humor, and wicked commentary. In short, a Dead Lee book without Dead Lee. To achieve this, this book has been aggressively edited down to a rather anemic 88 locations and 317 pages. Outside of a few stray words here and there, this is as close to family-friendly as I can get.

Guide to Psychological Assessment with African Americans Lorraine T. Benuto, Brian D. Leany, 2014-11-20 The movements toward cultural sensitivity and evidence-based practice are watershed developments in clinical psychology. As a population with a long history of substandard treatment from mental health systems, African Americans have especially benefitted from these improvements. But as with other racial and ethnic minorities, finding relevant test measures in most psychological domains presents clinicians with an ongoing challenge. The Guide to Psychological Assessment with African Americans aims to close the evaluation/therapy gap by giving practitioners the tools to choose appropriate instruments while respecting client individuality. Expert contributors analyze scarce and far-flung data, identify strengths and limitations of measures and norms.

in their use with African American clients and advise on avoiding biases in interpreting results The editors advocate for a theory based hypothesis testing approach to assessment when empirical evidence is lacking and offer guidelines for decision making that is effective as well as ethnically aware The Guide s findings insights and practical information cover the gamut of test and diagnostic areas including IQ and personality Generalized anxiety disorder panic and phobias Neuropsychological assessment cognitive decline and dementia Mood disorders and suicidality Forensic assessment risk and recidivism Measures specific to children and adolescents Plus PTSD substance disorders eating pathology and more Expertly complementing cross cultural treatment texts the Guide to Psychological Assessment with African Americans stands out as a trustworthy resource for treatment planning useful to clinical psychologists neuropsychologists and clinical social workers **Handbook of**
