Students Must Rise Ann Heffernan,Noor Nieftagodien,Sifiso Mxolisi Ndlovu,Bhekizizwe Peterson,2016-06-01 A detailed account of the incredibly influential Soweto Student Uprising of 1976 The Soweto Student Uprising of 1976 was a decisive moment in the struggle against apartheid It marked the expansion of political activism to a new generation of young activists but beyond that it inscribed the role that young people of subsequent generations could play in their country s future Since that momentous time students have held a special place in the collective imaginary of South African history Drawing on research and writing by leading scholars and prominent activists Students Must Rise takes Soweto 76 as its pivot point but looks at student and youth activism in South Africa more broadly by considering what happened before and beyond the Soweto moment Early chapters assess the impact of the anti pass campaigns of the 1950s of political ideologies like black consciousness as well as of religion and culture in fostering political consciousness and organisation among youth and students in townships and rural areas Later chapters explore the wide reaching impact of June 16th itself for student organisation over the next two decades across the country Two final chapters consider contemporary student based political movements including RhodesMustFall and FeesMustFall and historically root these in the long and rich tradition of student activism in South Africa 2016 marks the 40th anniversary of the 1976 June 16th uprisings This book rethinks the conventional narrative of youth and student activism in South Africa by placing that most famous of moments the 1976 students uprising in Soweto in a deeper historical and geographic context **Botswana Investment and Business Guide**

Volume 1 Strategic and Practical Information IBP, Inc.,2015-09-11 Botswana Investment and Business Guide Volume 1 Strategic and Practical Information *The Truth about Crime* Jean Comaroff,John L. Comaroff,2016-12-05 This new book by the well known anthropologists Jean and John L Comaroff explores the global preoccupation with criminality in the early twenty first century a preoccupation strikingly disproportionate in most places and for most people to the risks posed by lawlessness to the conduct of everyday life Ours in an epoch in which law making law breaking and law enforcement are ever more critical registers in which societies construct contest and confront truths about themselves an epoch in which criminology broadly defined has displaced sociology as the privileged means by which the social world knows itself They also argue that as the result of a tectonic shift in the triangulation of capital the state and governance the meanings attached to crime and with it the nature of policing have undergone significant change also that there has been a palpable muddying of the lines between legality and illegality between corruption and conventional business even between crime and policing which exist nowadays in ever greater hyphenated complicity Thinking through Crime and Policing is therefore an excursion into the contemporary Order of Things or rather into the metaphysic of disorder that saturates the late modern world indeed has become its leitmotif It is also a meditation on sovereignty and citizenship on civility class and race on the law and its transgression on the political economy of representation African Language Media Abiodun Salawu,2020-11-16 This edited volume considers why the African language press is unstable and what can be done to develop quality African language journalism into a sustainable business Providing an overview of the African language journalism landscape this book examines the challenges of operating sustainable African language media businesses The chapters explore the political economy and management of African language media and consider case studies of the successes and failures of African language newspapers as well as the challenges of developing quality journalism Covering print and digital newspapers and broadcast journalism this book will be of interest to scholars of media and journalism in Africa New Engagement David Mickler,Tanya Lyons,2013-06-01 Recent developments in both Africa and Australia have brought the two continents closer together In Africa a resources boom greater political stability and the creation of the new regional institutions have contributed to economic and human development even if many challenges including conflict poverty and exploitation remain Australia has commercial and political interests in Africa and if it wants to be a significant global actor must engage with both Africa s challenges and its growing international influence Since coming to power in 2007 Australian Labor governments have pursued new engagement with Africa after decades of relative neglect This book the first study of its kind explores the key contexts for and dimensions of contemporary Australian foreign policy towards Africa It highlights a deepening of diplomatic and political relations a trebling of the official aid budget to Africa and over 50 billion of Australian based investment in Africa s resources sector and suggests measures to make such engagement sustainable and of mutual benefit Contributions to the book come from academics civil servants diplomats and politicians **Indigenous Pathways**
