Shared Responsibility, Shared Risk Jacob Hacker, Ann O'Leary, 2011-08-15 The collapse of the financial markets in 2008 and the resulting Great Recession merely accelerated an already worrisome trend the shift away from an employer based social welfare system in the United States Since the end of World War II a substantial percentage of the costs of social provision most notably unemployment insurance

and health insurance has been borne by employers rather than the state The US has long been unique among advanced economies in this regard but in recent years its social contract has become so frayed that is fast becoming unrecognizable Despite Obama's election the burdens of social provision are falling increasingly upon individual families and the situation is worsening because of the unemployment crisis How can we repair the American social welfare system so that workers and families receive adequate protection and if necessary provision from the ravages of the market In *Shared Responsibility Shared Risk* Jacob Hacker and Ann O Leary have gathered a distinguished group of scholars on American social policy to address this most fundamental of problems Collectively they analyze how the privatization of risk has increased hardships for American families and increased inequality They also propose a series of solutions that would distribute the burdens of risks more broadly and expand the social safety net The range of issues covered is broad health care homeownership social security and aging unemployment wealth as opposed to income creation education and family friendly policies The book is also comparative measuring US social policy against the policies of other advanced nations Given the current crisis in America social policy and the concomitant paralysis within government the book has the potential to make an important intervention in the current debate

Noussia,2020-03-11 This Volume of the AIDA Europe Research Series on Insurance Law and Regulation focuses on transparency as the guiding principle of modern insurance law It consists of chapters written by leaders in the respective field who address transparency in a range of civil and common law jurisdictions along with overview chapters Each chapter reviews the transparency principles applicable in the jurisdiction discussed Whether expressly or impliedly all jurisdictions recognize a duty on the part of the insured to make a fair presentation of the risk when submitting a proposal for cover to the insurers although there is little consensus on the scope of that duty Disputed matters in this regard include whether it is satisfied by honest answers to express questions or whether there is a spontaneous duty of disclosure whether facts relating to the insured s character as opposed to the nature of the risk itself are to be presented to the insurers the role of insurance intermediaries in the placement process and the remedy for breach of duty Transparency is however a much wider concept Potential policyholders are in principle entitled to be made aware of the key terms of coverage and to be warned of hidden traps such as conditions precedent average clauses and excess provisions but there are a range of different approaches Some jurisdictions have adopted a soft law approach using codes of practice for pre contract disclosure while other jurisdictions employ the rather nebulous duty of utmost good faith Leaving aside placement transparency is also demanded after the policy has been incepted The insured is required to be transparent during the claims process There is less consistency in
