Norton, 2004 The authors of The Balanced Scorecard and The Strategy Focused Organization present a blueprint any organization can follow to align processes people and information technology for superior performance *What You Really Need to Lead* Robert Steven Kaplan, 2015 As Harvard Business School professor and business executive Robert Steven Kaplan explains in this new book leadership is accessible to all of us today and it starts with an ownership mind set You don't need an invitation to lead Leadership is a dynamic way of thinking and acting that anyone can take on For Kaplan acting as a leader is a function of three key questions 1 Do you work to figure out what you believe as if you were an owner 2 Do you take action based on those beliefs 3 Do you focus on adding value to others and take responsibility for the impact of your actions on others both positive and negative The book is full of stories taken from the author's own leadership experience as well as from his work helping various types of leaders and organizations What's revealed is that leadership is not a role reserved for an elite few blessed with the right skills and key positions it's about a focus on taking ownership and adding value to others What's more leadership is a lifelong journey of learning for which you must take responsibility It's about learning to ask the right questions and learning to understand yourself As in his earlier books Kaplan asks probing questions provides exercises and suggests follow up steps that will help you develop your skills create new habits and move you toward reaching your unique potential What You Really Need to Lead is your key to unlocking the power of thinking and acting like an owner

Kaplan,David P. Norton,2006-02-23 Most organizations consist of multiple business and support units each populated by highly trained experienced executives But often the efforts of individual units are not coordinated resulting in conflicts lost opportunities and diminished performance Robert S Kaplan and David P Norton argue that the responsibility for this critical alignment lies with corporate headquarters In this book the authors apply their revolutionary Balanced Scorecard management system to corporate level strategy revealing how highly successful enterprises achieve powerful synergies by explicitly defining corporate headquarters role in setting coordinating and overseeing organizational strategy Based on extensive field research in organizations worldwide Alignment shows how companies can build an enterprise level Strategy Map and Balanced Scorecard that clearly articulate the enterprise value proposition how the enterprise creates value above that achieved by individual business units operating alone The book provides case studies actionable frameworks and sample scorecards that show how to align business and support units boards of directors and external partners with the corporate strategy and create a governance process that will ensure that alignment is sustained The next breakthrough in strategy execution from the field s premier thinkers Alignment shows how today s companies can unlock unrealized value from enterprise synergies What to Ask the Person in the Mirror Robert Steven Kaplan,2011-07-12 Successful leaders know that leadership is less often about having all the answers and more often

about asking the right questions The challenge lies in being able to step back reflect and ask the key questions that are critical to your performance and your organization s effectiveness In What to Ask the Person in the Mirror leadership expert Robert Kaplan presents a process for asking the big questions that will enable you to diagnose problems change course if necessary and advance your career He lays out areas of inquiry including questions such as Do I clearly articulate my vision and top priorities to my employees and key constituencies Does the way I spend my time enable me to achieve my top priorities Do I give subordinates timely and direct feedback they can act on Do I actively seek feedback myself Have I developed a succession roadmap Is my organization s design aligned with the achievement of its objectives Is my leadership style still effective and does it reflect who I truly am Packed with real life situations this highly readable and practical guide helps you learn to ask the right questions and work through the answers in ways that are right for you By asking these questions you can tackle the inevitable challenges of leadership as you craft new strategies for staying on top of your game
