The book demonstrates that the political context of realism is the sphere or possibility of civil war divided societies and unstable communities Postcolonial realism is prompted by disturbing political circumstances and it gestures toward a commonly imagined world precisely because such a notion is under pressure or absent **Turning the Page** Angus Phillips, 2014-02-05 This is an exciting period for the book a time of innovation experimentation and change It is also a time of considerable fear within the book industry as it adjusts to changes in how books are created and consumed The movement to digital has been taking place for some time but with consumer books experiencing the transition the effects of digitization can be clearly seen to everybody In Turning the Page Angus
