

Solving Problems Involving Radical Expressions

Consider the Word Problem . . .

You are interesting in a buying a gift that is shaped like a cube for your friend. However, you only have 5 square yards of wrapping paper. The formula for the cube with the longest edge length, s , you can buy is $s = \sqrt[3]{\frac{A}{6}}$ where s is the edge length, and A is the surface area. What is the longest side length of a cube you could buy based on how much wrapping paper you have? Round your answer to the nearest tenth of a yard.

$$s = \sqrt[3]{\frac{A}{6}}$$

Technical Mathematics Paul A. Calter, Michael A. Calter, 2011-03-22 This textbook has been in constant use since 1980 and this edition represents the first major revision of this text since the second edition. It was time to select make hard choices of material polish refine and fill in where needed. Much has been rewritten to be even cleaner and clearer. New features have been introduced and some peripheral topics have been removed. The authors continue to provide real world technical applications that promote intuitive reader learning. Numerous fully worked examples and boxed and numbered formulas give students the essential practice they need to learn mathematics. Computer projects are given when appropriate including BASIC spreadsheets computer algebra systems and computer assisted drafting. The graphing calculator has been fully integrated and calculator screens are given to introduce computations. Everything the technical student may need is included with the emphasis always on clarity and practical applications. The Trust Process in Organizations B.

Nooteboom, Frédérique Six, 2003-01-01 This volume is essential reading for those who want to keep abreast of cutting edge research on the role and sources of trust in organizations. The introductory chapters by Nooteboom and Six make conceptual strides by examining the interface between cognitive theory and different forms of trust. The detailed case studies and quantitative analyses of trust in organizational and team contexts fill an important gap in the empirical literature on trust. Overall the volume does a superb job of outlining a research programme addressed to theorists concerned with problems of cognition trust power and reciprocity in organizational settings. Edward Lorenz Centre d Etudes de l Emploi France This is an important and timely book. During the last ten years there has been growing recognition of the role of trust in promoting the economic performance of firms organizations and societies but much of the research has been of a purely theoretical nature. Now two leading proponents of the new approach have collaborated to provide empirical confirmation of key hypotheses. This collection of highly original studies by Dutch and French researchers highlights the importance of leadership and other social processes in engineering trust within organizations. It is essential reading for economists sociologists psychologists and students of management and organization interested in this field. Mark Casson University of Reading UK Taking an interdisciplinary approach this volume focuses on the trust processes between people within organizations with an emphasis on empirical studies.
