Karl Iagnemma includes commentary by the organizers overall analysis of the results and documentation of the technical efforts of 15 competing teams The book provides an important record of the successes and failures involved in the DARPA Robotics Challenge and provides guidance for future needs to be addressed by policy makers funding agencies and the robotics research community Many of the papers in this volume were initially published in a series of special issues of the Journal of Field Robotics We have proudly collected versions of those papers in this STAR volume **The ARRL Operating Manual** Robert Halprin,1985 *Field and Service Robotics* David S.
