

“Welcome to Kindergarten”

Dear Parents,

A warm welcome to all our kindergarteners! We hope you had a blast last summer and ready for this year's learning adventure. Kindergarten is a time for children to expand their love of learning, their general knowledge, their ability to get along with others, and their interest in reaching out to the world. Our educational program is set to meet all that and provide a nurturing environment. While kindergarten marks an important transition, it is important that children still get to be children. “Your children are in for a treat!” Kindergarten life is sweet with all the fun and exciting activities. Let's all gear up for a successful year!

Building School and Home , *Partnership with Parents in Early Childhood Settings* Liz Hryniewicz, Paulette Luff, 2020-10-29

Partnership with Parents in Early Childhood Settings examines how practitioners can work effectively with parents and families acknowledging the complex nature of these relationships. Drawing on policy research and practice from kindergartens and early years settings in five European countries it provides insight into how political, social and cultural contexts affect the relationships between educators and families and the impact this has on children's early experiences. The book is based upon learning from an Erasmus mobility project between educators from five countries in OMEP the World Organisation for Early Childhood Education. It presents examples from practice and research from the different countries and highlights some positive and practical ways in which professionals can work with parents as well as potential barriers to parental partnership and how these might be overcome. Each section focuses on a different country and allows for a detailed exploration into how relationships are developed and sustained for the benefit of young children and their families in different places. Throughout the reader is encouraged to reflect on their current understanding of parental partnership and how they can plan for positive parental partnership working in the future. This thought provoking text will be an indispensable resource for students of early childhood and teachers and practitioners as well as academics and those with an interest in early years social and educational policy.
