Perspectives on Western Sahara Anouar Boukhars, Jacques Roussellier, 2013-12-18 The ongoing conflict in Western Sahara is one of the more intractable legacies of European colonization in North Africa Following the withdrawal of Spain this territorial dispute escalated in 1975 into a war of independence between the Sahrawi people of the Polisario Front who were backed by Algeria and the states of Mauritania and Morocco In 1976 the Polisario Front established the Sahrawi Arab Democratic Republic which was not admitted in the UN but won recognition by a few states After multiple peace efforts the conflict reemerged in 2005 as the independence Intifada Today the Polisario Front controls about 20% of Western Sahara At the heart of the conflict lie geopolitical interests and incompatible claims aggravated by the use of military force and decades of mostly unproductive diplomatic maneuvers by international bodies and regional or foreign powers This thorough impartial survey brings together some of the best experts on the Sahara question to provide a broad based analysis of the problem from a range of perspectives Featuring new research the chapters examine the roots of the conflict its dynamics and potential solutions This groundbreaking text also addresses questions of law human rights natural resources from an analytical point of view Contributed by scholars from North Africa Europe and the U S it is an essential contribution to the literature of Middle East and African studies

A History of the Western Sahara Conflict Michael Baers, 2022-10-10 The conflict in Western Sahara has endured for nearly half a century yet remains little known on the world stage Drawing on multiple sources this book presents an expansive history of both the conflict and the region encompassing the history of the early Moroccan empires the successive migrations of Arab nomads across the Sahara the age of European exploration and colonialism and the postcolonial period when the conflict erupted out of a complex set of forces that include longstanding regional tensions North Africa's colonial legacy the instability of post independence Morocco and diplomatic intrigues on the part of Western powers during the Cold War period While it does not address the history of the conflict following the UN mandated ceasefire of 1991 the book provides an overview for readers interested in both the conflict itself and the history of African nationalism in the post war period

Territorial Integrity in a Globalizing World Abdelhamid El Ouali, 2012-03-28 This book offers a comprehensive highly informative and interdisciplinary study on territorial integrity and the challenges globalization self determination and external interventions present This study aims at not only to fill an epistemological gap in this regard but also answer the question of whether International Law is adequately equipped to help states address these challenges The author argues that the biggest threat that many states are confronted with today is their disintegration rather than their obsolescence and that International Law has not often been able to prevent that eventuality In fact states when they were not destroyed by war managed to survive thanks to the flexibility of territoriality i e their ability to adjust to difficult situations as they arose It is this understanding of adaptation that urges an increasing number of states today to revive territorial autonomy and restore an original understanding of self determination in which democracy is a pivotal factor in establishing congruence between the states and their nations While this move is endorsed by International Law it is not the case for globalization for their own sake proponents of globalization should recognize that the states are irreplaceable as long as they remain the sole providers of protection for their peoples

Brownlie's Principles of Public International Law James Crawford, Ian Brownlie, 2019 Serving as a single volume introduction to the field as a whole this ninth edition of Brownlie's Principles of International Law seeks to present international law as a system that is based on and helps structure relations among states and other entities at the international level

North Africa Yahia H. Zoubir, Haizam Amirah-Fernández, 2008-01-15 This volume provides a comprehensive overview of the contemporary Maghreb It includes profiles of individual countries and regional issues such as migration gender economics and war in Western Sahara

North African Mosaic Nabil Boudraa, Joseph Krause, 2009-03-26 This book's ambition is to offer the most recent scholarship on North African cultures at a time when the very notion of culture is being re evaluated in the shifting tides that both associate and divorce the forces of nationalism globalism and neo liberalism Another ambition is to be a readable document about the past and the potential of North African civilizations Those which have been crystallized into a polysemic voice from centuries of occupations exchanges and what is now commonly called hybridizations In this work the collective position of the authors with their different fields of experience is that the languages musics and the many expressions of common life in North Africa continue to flourish That they are a

bridge between sub Saharan peoples and Europe That they are a necessary antidote to the anemic political discourses that have prevailed since decolonization That they are seminal for the future of the African continent as it begins its true voyage into democracy It is difficult at this juncture to measure the distance that in the decades to come will be achieved on that voyage It is however less difficult to evaluate the importance of North Africa on tomorrow s world If the past is an indicator it will be an important force in the cross flow of trade ideas and of global destinies

External Governance as Security

Community Building Pernille Rieker,2016-04-26 The European Neighbourhood Policy ENP was initially intended to create a ring of friends surrounding the Union from Morocco to Russia and the Black Sea Prodi 2002 Today however the ever worsening security situation in the region clearly shows that the aim has not been achieved With wars in Ukraine Syria and Libya the Union s neighbourhood can therefore better be described as a ring of fire Does this means that the policy has failed and that an alternative policy towards the EU s neighbours is needed Or should these developments be seen as temporary setbacks caused by external factors beyond EU control By comparing the EU s approach to its eastern and southern neighbours this volume seeks to answer such overarching questions The authors find that the EU still has a potential role to play in providing regional security but that this role also risks being increasingly undermined if it does not increasingly take into account the broader geostrategic realities in both regions

Post-Colonial Settlement Strategy Ehud Eiran,2019-02-20

Settlement projects are sustained clusters of policies that allow states to strategically plan implement and support the permanent transfer of nationals into a territory not under their sovereignty Ehud Eiran explains why states launch settlement projects into occupied areas and introduces the international environment as an important enabling variable By drawing comparisons between three such major projects Israel in the West Bank and Gaza Morocco in Western Sahara and Indonesia in East Timor Ehud Eiran classifies post colonial settlement projects as a distinct cluster of cases that warrant a different analytical approach to traditional colonial studies

Gender and the Media Marcia Texler Segal,Vasilikie (Vicky)

Demos,2018-11-19 A variety of print audio and visual media including comics trade publications music and newspapers are considered to explore the portrayal of gender and gender related issues With a focus on girls and women the chapters ponder how media formats both shape and are shaped by the social order

Global, Regional and Local Dimensions of

Western Sahara's Protracted Decolonization Raquel Ojeda-Garcia,Irene Fernández-Molina,Victoria Vaguilla,2016-11-30

This book explores the traces of the passage of time on the protracted and intractable conflict of Western Sahara The authors offer a multilevel analysis of recent developments from the global to the local scenes including the collapse of the architecture of the UN led conflict resolution process the advent of the War on Terror to the the Sahara Sahel area and the impact of the Arab Spring and growing regional security instability Special attention is devoted to changes in the Western Sahara territory annexed by Morocco and the Sahrawi refugee camps in Algeria Morocco has adapted its governance and public policies to profound socio demographic transformations in the territory under its control and has attempted to obtain

international recognition for this annexation by proposing an Autonomy Plan The Polisario Front and Sahrawi nationalists have shifted their strategy and pushed the centre of gravity of the conflict back inwards by focusing on pro independence activism inside the disputed territory

African Immigrants in Contemporary Spanish Texts Debra Faszer-McMahon, Victoria L. Ketz, 2016-03-09 Around the turn of 21st Century Spain welcomed more than six million foreigners many of them from various parts of the African continent How African immigrants represent themselves and are represented in contemporary Spanish texts is the subject of this interdisciplinary collection Analyzing blogs films translations and literary works by contemporary authors including Donato Ndongo Equatorial Guinea Abderrahman El Fathi Morocco Chus Guti rrez Spain Juan Bonilla Spain and Bahia Mahmud Awah Western Sahara the contributors interrogate how Spanish cultural texts represent idealize or sympathize with the plight of immigrants as well as the ways in which immigrants themselves represent Spain and Spanish culture At the same time these works shed light on issues related to Spain s racial ethnic and sexual boundaries the appeal of images of Africa in the contemporary marketplace and the role of Spain s economic crisis in shaping attitudes towards immigration Taken together the essays are a convincing reminder that cultural texts provide a mirror into the perceptions of a society during times of change
