Westmead Home Safety Checklist:

An Occupational Therapist's Guide to Home Modification Practice Elizabeth Ainsworth, Desleigh de Jonge, 2024-06-01 Older people and people with a disability have a right to be included in all aspects of home and community life and yet environmental barriers continue to exist in the built environment. There are concerns about how well homes can support older people and people with a disability over time as their needs change. Occupational therapists are well suited to determining the most appropriate home modification solutions to address environmental barriers. They possess the knowledge and skills necessary to evaluate people's current and future needs in the context of the nature and use of the environment and can work collaboratively with design and construction professionals to develop solutions. To be comprehensive and effective in their approach, occupational therapists need to understand not only the individual's requirements but also the ethical and legal contexts for practice, the technical aspects of the built environment, the relevance and intent of access standards and design approaches, and the application of a range of products and finishes. *An Occupational Therapist's Guide to Home Modification Practice Second Edition* by Elizabeth Ainsworth and Desleigh de Jonge and their team of expert contributors provides comprehensive information to inform occupational therapists about current practice and research. This includes the authors using a transactional approach to examine the person-occupation-environment interaction and providing occupational therapists with a detailed understanding of the various dimensions of the home environment that can impact on clients' home modification decisions. New material has been provided relating to research and practice issues such as an overview of the latest home modification outcome research findings as documented in literature, an update on outcome evaluation, new research information about the dimensions of the home impacting on decision making, additional information on grabrail and ramp prescription, and the inclusion of new case studies illustrating minor and major modification solutions for clients who present with diverse needs. In the Second Edition, you will find a detailed understanding of aspects of the home environment that impact home modification decisions. A review of legislative environment and funding systems that facilitate service delivery. An overview of home modification services as well as future trends. A range of comprehensive case studies illustrated by photographs. Additional theory to inform knowledge and skill development that can be used in home modification practice worldwide. Included with the text are online supplemental materials for faculty use in the classroom. *An Occupational Therapist's Guide to Home Modification Practice Second Edition* provides a range of resources and tools and it can be used as a teaching aid to support students, interns, and novice therapists or as a manual for reflection and practice for more experienced home modification practitioners. *Handbook of Occupational Therapy for Adults with Physical Disabilities* William Sit, Marsha Neville, 2024-06-01 *Handbook of Occupational Therapy for Adults With Physical Disabilities* by Drs William Sit and Marsha Neville provides quick and essential information for occupational therapists that are new to the adult practice setting. This handbook is primarily organized by body system.

into six sections Occupational performance as a whole Central nervous system Peripheral nervous system cranial nerves and sensory system Musculoskeletal system Cardiovascular lymphatic respiratory and integumentary systems Endocrine digestive urinary and reproductive system At the beginning of each section you will find a case study based on clinical experience that embodies the chapter subject Within each section information is broken down into important aspects of the evaluation process and then followed by the implications of each system on occupational therapy intervention Handbook of Occupational Therapy for Adults With Physical Disabilities also includes a summary chart where readers can quickly and easily find the purpose context form cost and contact information for each assessment Handbook of Occupational Therapy for Adults With Physical Disabilities is ideal for occupational therapy students recent graduates and practitioners who are newly entering an adult physical disability practice setting **The Occupational Therapy Handbook: Practice Education**

Stepping On: Building Confidence and Reducing Falls 3rd edn Lindy Clemson, Megan Swann, 2019-11-01. The Stepping On program is a community based falls prevention program that shows participants how to reduce falls, increase confidence, and maintain personal independence. Originally developed in Australia based on research and scientifically proven to work, the Stepping On program is now internationally recognised as best practice in falls prevention. The Stepping On manual is aimed at health workers with a passion for aged care. It offers a step by step guide to running the seven week group program plus essential background information. Topics covered include understanding the risk of falls, identifying home hazards, the role of vision in causing and preventing falls, staying safe in public places, strength and balance exercises, and much more. The manual includes a guide to useful resources, handouts for group participants, and suggestions for recruitment and evaluation. This new edition has been thoroughly revised and redesigned to incorporate cutting edge research, professional feedback, and over fifteen years experience of running of the program. As well as the latest fall prevention research, the revised manual contains an expanded section on working with culturally and linguistically diverse groups, simplified exercises for participants to do at home, and new stories and illustrations. This is an invaluable manual incorporating the latest evidence for falls prevention in the community. Professor Lyn March, AM, University of Sydney and Royal North Shore Hospital, Sydney. This new Stepping On manual will be a wonderful resource for many health professionals like myself who work with patients who have had falls and fractures. It is definitely my go to resource in our very busy clinic. Lillias Nairn, North Shore Ryde Health Service. A range of handouts and supplementary materials are available for download.
