WHAT IS ACCOUNTING?

STUDY OBJECTIVE 1

Explain what accounting is.

Why is accounting so popular? What consistently ranks as one of the top career opportunities in business? What frequently rates among the most popular majors on campus? What was the undergraduate degree chosen by **Nike** founder Phil Knight, **Home Depot** co-founder Arthur Blank, former acting director of the **Federal Bureau of Investigation (FBI)** Thomas Pickard, and numerous members of Congress? Accounting.¹ Why did these people choose accounting? They wanted to understand what was happening financially to their organizations. Accounting is the financial information system that provides these insights. In short, to understand your organization, you have to know the numbers.

Accounting consists of three basic activities—it **identifies**, **records**, and **communicates** the economic events of an organization to interested users. Let's take a closer look at these three activities.

Three Activities

To **identify** economic events, a company selects the **economic events relevant to its business**. Examples of economic events are the sale of snack chips by **PepsiCo**, providing of telephone services by **AT&T**, and payment of wages by **Ford Motor Company**.

¹The appendix to this chapter describes job opportunities for accounting majors and explains why accounting is such a popular major.
