What Are The Similarities Between Nsfas N Funsu Lushaka:

Empowering Novice Academics for Student Success Dr Johann Hugo, 2021-04-26 This book is essential for academics that enter the field of higher education and training as it focuses on preparing teachers and trainers to respond appropriately to student success challenges. Student success is a burning issue both globally and locally. While student achievement is determined by a combination of factors, teachers and their teaching practices do matter. Higher education teachers are expected to fulfil different roles at different times such as planning for curriculum implementation, mentorship and coaching, facilitating learning resource development and student assessment. Against this background, the primary purpose of *Empowering novice academics for student success* is building the capacity of novice teachers and trainers to play an influential role in increasing student success throughput. **Where Am I in the Picture?**

Claudia Mitchell, Katarina Giritli-Nygren, Relebohile Molestane, 2023-12-18 Positionality and researcher reflexivity: how to account for one's subject position remain as challenges for new researchers. But they also remain as challenges for experienced researchers who are often involved in multiple research projects simultaneously. *Where Am I in the Picture* sheds light on the idea of researcher positionality through visual methodologies, particularly in the context of studying rurality in Canada, Sweden and South Africa. The book is intended for new and experienced researchers seeking to decolonize their own perspectives in research in the social sciences and humanities. It incorporates photographs, drawings and memory work to highlight the social constructedness of what counts as rural. Drawing together compelling narratives from researchers about their positionality in studying rurality, the book highlights a need for greater attention to where we are in the picture more broadly. It suggests that when it comes to the rural, researchers need to rethink the interplay of dominant images, insider and outsider perspectives and what this interplay means in relation to interpretation. *Where Am I in the Picture* presents a new vision of how to take into consideration positionality in research. **Learning to teach in**

It adds to the knowledge about teacher education, contributing critical understanding of education and the schooling system. The book provides important insights to deepen researchers', academics', teacher education providers', policy makers' and students' understanding of the importance to address equity, redress and quality in South African education in a post apartheid era. This book further helps to build student teachers' capacities to work creatively and to become active and critical agents of transformation. It ultimately outlines the challenges faced in designing and delivering successful Initial Teacher Education programmes and the impact this has on delivering equitable and quality
