Children's Reading Comprehension and Assessment Scott G. Paris, Steven A. Stahl, 2005-03-23

Originating in a recent CIERA conference held at the University of Michigan, this book brings together the nation's most distinguished researchers to examine how readers understand text and how comprehension is assessed. The first part provides both national and historical contexts for the study of reading comprehension. The second part examines how vocabulary, motivation, and expertise influence comprehension and includes analyses of the developmental course and correlates of comprehension. Chapters in the third part consider how schools focus on comprehension for instruction and assessment. The fourth part includes chapters on large-scale assessment that analyze how test formats and psychometric characteristics influence measures of reading comprehension. At the end of each part is a commentary written by an expert that reviews the chapters, critiques the main points, and synthesizes critical issues. Key features of this outstanding new book include:

- Integration of Research and Practice: provides a bridge between conceptual issues studied by researchers concerned with reading comprehension theories and practical issues addressed by educators concerned with classroom instruction and assessment.
- Comprehension Focus: provides a thorough history and rigorous research-based analyses of reading comprehension.
- Assessment Focus: provides innovative approaches to comprehension assessment that include the influences of vocabulary, decoding, and motivation.
- Synthetic Commentaries: provides periodic summaries that analyze and synthesize research practices and issues discussed in each part.

Expertise: contributing authors and commentators are highly respected authorities on reading comprehension. See table of contents. This text is appropriate for educational and psychological researchers, reading educators, and graduate students in education and psychology. It is part of the CIERA series which includes the following volumes:

- Taylor and Pearson Teaching Reading Effective Schools Accomplished Teachers 2002
- Van Kleeck, Stahl, and Bauer On Reading Books to Children: Parents and Teachers 2003
- Hoffman and Schallert The Texts in Elementary Classrooms 2005

Aimed solar and lunar returns. What you can do when you cannot leave Ciro Discepolo, 2009

English speaking readers fond of Astrology already know the Author thanks to his previous works: Transits and Solar Returns and Lunar Returns and Earth Returns, which have also been translated into several other languages. In a practice of almost forty years of astrological research, the Author has studied and guided over twenty thousand aimed birthdays; he has also published a dozen books specifically on Solar Returns and Lunar Returns. This is his fifth work in English; two of them can be downloaded free from his webpage www.cirodiscepolo.it. In this volume, Ciro Discepolo deals with the second resource on which his Active Astrology is based: the first one being the aimed birthday, the so-called exorcism of symbols. In these pages, the Author suggests to the Reader about what can be done when you cannot aim, i.e. actively relocate.

your birthday either your Solar or Lunar Return by a practical application of the notion of activating or constellating a symbol
 For example Ciro Discepolo claims that if you can not leave for an aimed birthday to avoid Saturn being placed in the 5th
 House of your next Solar Return during the twelve months covered by the SR you had better devote more time to your kids
 help them in their studies or in their sporting activities pay the fee to enrol them in a course perhaps abroad where they
 could learn new subjects and or nurture and improve their condition in a broad sense Planet by planet House by House this
 volume contains all the suggestions of the Author on the exorcism of symbols a useful practice also in the case you do
 relocate your Solar and or Lunar Returns for example if you have willingly left some dissonant position in your map of Aimed
 SR or of Aimed LR and you wish to lower the threshold of risk a little more The volume also explains the philosophical and
 psychological roots justifying the practice of the exorcism of symbols **"I Just Want To Be Loved!"** Susan Faye
