**Climate Action Planning** Michael R. Boswell, Adrienne I. Greve, Tammy L. Seale, 2019-07-16 Climate change continues to impact our health and safety the economy and natural systems With climate related protections and programs under attack at the federal level it is critical for cities to address climate impacts locally Every day there are new examples of cities approaching the challenge of climate change in creative and innovative ways from rethinking transportation to greening city buildings to protecting against sea level rise Climate Action Planning is designed to help planners municipal staff and officials citizens and others working at local levels to develop and implement plans to mitigate a community's greenhouse gas emissions and increase the resilience of communities against climate change impacts This fully revised and expanded edition goes well beyond climate action plans to examine the mix of policy and planning instruments available to every community Boswell Greve and Seale also look at process and communication How does a community bring diverse voices to the table What do recent examples and research tell us about successful communication strategies Climate Action Planning brings in new examples of implemented projects to highlight what has worked and the challenges that remain A completely new chapter on vulnerability assessment will help

each community to identify their greatest risks and opportunities Sections on land use and transportation have been expanded to reflect their growing contribution to greenhouse gas emissions The guidance in the book is put in context of international national and state mandates and goals Climate Action Planning is the most comprehensive book on the state of the art science and practice of local climate action planning It should be a first stop for any local government interested in addressing climate change
