Committee on Health, Education, Labor, and Pensions, 2012 The School Improvement Planning Handbook Daniel L. Duke, Marsha Carr, William Sterrett, 2012-12-27 Developing and updating school improvement plans is an annual ritual for virtually all school principals and their school improvement committees Still large numbers of schools continue to produce disappointing outcomes The authors believe that part of the problem is the result of plans that focus on the wrong targets and that rely on ineffective strategies for improvement To help principals and their school improvement committees develop and implement plans with a greater likelihood of success the authors offer a step by step process for school improvement planning They go on to pinpoint specific school improvement goals including raising reading and mathematics achievement building robust school cultures addressing the needs of English language learners improving instruction and reducing absenteeism and dropouts For each goal a variety of objectives and proven strategies is presented along with sample school improvement plans The book addresses the differences in planning to turn around a low performing school planning to sustain improvements over time and planning to move a good school to a great school Charting a Course to Standards-Based Grading Tim R. Westerberg, 2016-08-24 What is the best way to ensure that grading policies are fair accurate and consistent across classrooms How can schools transition to a grading system that better reflects what students are actually learning Tim R. Westerberg makes this journey easier by offering a continuum of options with four destinations on the road to improved grading and assessment Destination 1 critically examines such popular grading mechanisms as the zero extra credit the semester killer project averaging mixing academic performance with work ethic and refusing to accept late work and explains how they undermine objectivity and instead result in widely divergent grades for comparable work with major consequences for students Destination 2 invites educators to put assessment and grading into the larger context of a districtwide guaranteed and viable curriculum and lays out the organizational conditions and necessary steps to accomplish this goal Destination 3 brings parents and others on board with a multiyear implementation plan and community engagement strategies for introducing report cards that indicate student achievement by standards rather than or in addition to letter grades Destination 4 competency based education involves a total rethinking of the nature and structure of school leading to individualized education for all students However far they choose to go administrators and teacher leaders can turn to Charting a Course to Standards Based Grading for the quick wins and long term support and guidance they need to make the trip well worth the effort **From Rigorous Standards to Student Achievement** Laura Mc Cullough, Michael D.
