Technology Anupam Biswas, Emile Wennekes, Tzung-Pei Hong, Alicja Wiczorkowska, 2021-05-31 This book features original papers from 25th International Symposium on Frontiers of Research in Speech and Music FRSM 2020 jointly organized by National Institute of Technology Silchar India during 8-9 October 2020. The book is organized in five sections considering both technological advancement and interdisciplinary nature of speech and music processing. The first section contains chapters covering the foundations of both vocal and instrumental music processing. The second section includes chapters related to computational techniques involved in the speech and music domain. A lot of research is being performed within the music information retrieval domain which is potentially interesting for most users of computers and the Internet. Therefore the third section is dedicated to the chapters related to music information retrieval. The fourth section contains chapters on the brain signal analysis and human cognition or perception of speech and music. The final section consists of chapters on spoken language processing and applications of speech processing. National Information Center United States. Congress.
