## **Pakistan Studies 2005 November Paper 2 Papers:**

, *North Korea's Military-Diplomatic Campaigns, 1966-2008* Narushige Michishita, 2009-10-16 This book examines North Korea's nuclear diplomacy over a long time period from the early 1960s setting its dangerous brinkmanship in the wider context of North Korea's military and diplomatic campaigns to achieve its political goals. It argues that the last four decades of military adventurism demonstrates Pyongyang's consistent calculated use of military tools to advance strategic objectives vis-à-vis its adversaries. It shows how recent behavior of the North Korean government is entirely consistent with its behavior over this longer period: the North Korean government's conduct rather than being haphazard or reactive is rational in the Clausewitzian sense of being ready to use force as an extension of diplomacy by other means. The book goes on to demonstrate that North Korea's calculated adventurism has come full circle: what we are seeing now is a modified repetition of earlier events such as the Pueblo incident of 1968 and the nuclear and missile diplomacy of the 1990s. Using extensive interviews in the United States and South Korea including those with defected North Korean government officials alongside newly declassified first-hand material from U.S., South Korean and former Communist bloc archives, the book argues that whilst North Korea's military-diplomatic campaigns have intensified, its policy objectives have become more conservative and are aimed at regime survival, normalization of relations with the United States and Japan and obtaining economic aid.

**CBMs In India-Pakistan Relations** Surender Singh, 2021-08-09 About the Book India and Pakistan, the two important countries of the South Asian Sub-continent, have had a far from cordial relationship. It was in sum a love-hate relationship in which one is compelled to unwillingly coexist with the other and retain a constant but correct relationship on account of geography and historical circumstances. This state of affairs between the two countries could be traced to the very beginning of the birth of the two nations in 1947. The problems that existed in the initial years of their independence have survived in the seventh decade with no signs yet of any enduring solution. This study deals with India-Pakistan relations from 2003 to the present time. This period has been chosen because it signifies the culmination of certain trends in the relationship between the two nations after the start of the process of Confidence Building Measures (CBMs). This book provides a theoretical understanding of the South Asian region in general and India-Pakistan relations in particular. It analyses not only India's interests and policy options towards Pakistan but also evaluates the real nature of their bilateral relations. It has discussed not only the key issues between them such as Kashmir, Terrorism, Siachen, Sir Creek, Drug Trafficking but also provides their likely solutions to these problems. Besides this, the process of CBMs and the steps taken by both nations are also discussed in it. Hence, this book presents an overview of the contemporary nature of India-Pakistan relations after the start of the process of CBMs. The book may be beneficial for students, teachers, policymakers, diplomats as well as common readers engaged in understandings of the current discourses on India-Pakistan relations in this changed international milieu. **Ungoverned Territories** Angel Rabasa, Steven Boraz, Peter Chalk, Kim Cragin, Theodore W. **Professional Journal of the United States Army** ,2008      Economic and Political Weekly ,2006-03      *Targeted Killings, Law and Counter-Terrorism Effectiveness* Ophir Falk,2020-06-01 This book examines the permissibility and effectiveness of targeted killing in campaigns against terror Targeted killing has become a primary counterterrorism measure used by several countries in their confrontation with lethal threats The practice has been extensively used by the US in Afghanistan Iraq Pakistan Yemen and Somalia and by Israel in the West Bank and Gaza Several studies have already explored the difficult balance between achieving security while maintaining the liberties and rights of a country s civilians This book goes a step further by seeking to examine whether maintaining those liberties by complying with legal standards and minimizing unintended deaths can be more effective for national security Using targeted killing applied by Israel in particular as well as the United States during the first decade of the twenty first century as case studies this book explores that question and ultimately assesses whether compliance with legal standards can strengthen a state in its campaign against terrorism and thus provide stronger security The book focuses on civilian related criteria hypothesizing that minimizing civilian casualties will maximize effectiveness in an asymmetric war setting The conclusions are not limited to a specific tactic or theater and if adopted might have far reaching implications for how asymmetric warfare is strategized This book will be of much interest to students of counter terrorism law Middle Eastern studies and security studies      Rethinking Economic Development in Northeast India Deepak K. Mishra,Vandana Upadhyay,2017-02-03 Economic development of frontier and remote regions has long been a central theme of development studies This book examines the development experience in the northeastern region in India in relation to the processes of globalisation and liberalisation of the economy Bringing together researchers and scholars from both within and outside the region the volume offers a comprehensive and updated analysis of governance and development issues in relation to the northeastern economy With its multidisciplinary approaches the chapters cover a variety of sectors and concerns such as land agriculture industry infrastructure finance human development human security trade and policy This book will be useful to scholars and researchers of economics public policy governance and development geopolitics geography development studies politics and sociology of development and area studies as well as observers and policymakers interested in the Northeast      In Search of Better Governance in South Asia and Beyond Ishtiaq Jamil,Steinar Askvik,Tek Nath Dhakal,2013-06-26 The pursuit for better governance has assumed center stage in developmental discourse as well as reform initiatives of all organizations working for the public welfare and includes such issues as service delivery and responding to citizens needs and demands In the era of globalization multilevel and new modes of governance are changing the traditional governance models of nation states accelerated by

technological innovation rising citizen expectation policy intervention from international and multilateral donor communities and the hegemony of western ideology imposed on many developing nations However a universally accepted and agreed upon definition of governance still remains elusive There is no consensus or agreement as to what would be the nature and form of governance and public administration The question that is raised Is there a universal governance mechanism that fits in all contexts or governance mechanisms should be based on home grown ideas One can see various programs and policies of reforms and reorganizations in public administration in the developing countries but these efforts have not been effective to address the challenging issues of economic development employment generation poverty reduction ensuring equality of access to public services maintaining fairness and equity security and safety of citizens social cohesion democratic institution building ensuring broader participation in the decision making process and improving the quality of life Therefore there is a widespread concern for better governance or sound governance to bridge the gap between theory and practice making this book of interest to academics as well as policy makers in global public administration

Diverse Narratives and Shared Beliefs Soumya Awasthi,2025-06-27 This book delves into the intricate tapestry of Deoband Islam in India Pakistan and Afghanistan Challenging simplistic narratives it unveils the nuanced reality of Deoband Islam revealing a diverse range of perspectives within the movement It illuminates the movement s historical social and philosophical dimensions It explores the movement s relationship with societal transformation and communal identity and its impact on the geopolitical dynamics of South Asia The book offers a distinctive perspective on the Deoband school of thought in Islam by systematically categorising it into three distinct regional variants each reflecting the unique socio political context of its environment The

focus is on the Deoband school of thought a strand within Sunni Islam that adheres to the philosophical framework of Ashari Maturidi Critically examining its teachings uncovers the complexities and contradictions that shape Deobandis thought challenging popular assumptions and providing a fresh understanding It also highlights the voices of Deobandi scholars and organisations who unequivocally denounce terrorism and actively work to counter radicalisation Acknowledging their efforts the book underscores the potential for dialogue and cooperation in promoting peace and understanding With its comprehensive approach and thought provoking analysis this book is essential for scholars policymakers political science departments theology sociology international relations security studies and South Asian studies *Explore*, 2003 *China, Xinjiang and Central Asia* Colin Mackerras, Michael Clarke, 2009-04-14 Central Asia and Xinjiang the far northwestern province of China are of increasing international importance This book provides a comprehensive overview of the region s significance historically of the contemporary international forces which affect the region and of current political economic and cultural developments *Islands of Agreement* Gabriella Blum, 2007 We are culturally conditioned to think of war and peace in binary terms of strict opposition Correspondingly we tend to focus our attention on conflict prevention or conflict resolution But as *Islands of Agreement* demonstrates peace and war are seldom polar totalities but increasingly can and do coexist within the confines of a single scenario Consequently Gabriella Blum suggests that even where conflict exists we regard it as only one dimension of an ongoing multifaceted interstate relationship The result is a shift in perspective away from the constricting notions of prevention or resolution toward a more holistic approach of relationship management This approach is especially pertinent because conflicts cannot always be prevented or resolved Through case studies of long enduring rivalries India and Pakistan Greece and Turkey Israel and Lebanon Blum shows how international law and politics can function in the battlefield and in everyday life forming a hybrid international relationship Through a strategy she calls islands of agreement Blum argues that within the most entrenched and bitter struggles adversaries can carve out limited areas that remain safe or even prosperous amid a tide of war These havens effectively reduce suffering and loss and allow mutually beneficial exchanges to take place offering hope for broader accords **Military Inc.** Ayesha Siddiqa, 2016-11-20 Pakistan is a strategic ally of the US in the war on terror It is the third largest recipient of US aid in the world Yet Pakistan is a state run by its army and intelligence service Operating in the shadows Pakistan s military industrial complex owns and controls swathes of the economic and political landscape of the country *Military Inc* dares to illuminate the military as an oppressive holding company possessing not just security related businesses but also hotels shopping malls insurance companies banks farms and even an airline The result is a deeply undemocratic society where money is funnelled towards the military s economic enterprises leaving those in need of it impoverished and effectively disenfranchised With an empirical richness and a view to Pakistan s recent history Ayesha Siddiqa offers a detailed and powerful case study of a global phenomenon corruption hollow economic growth and elitism This new edition includes a chapter on the recent developments
