Contested Masculinities Robert Stegmann, 2020-10-27 In Contested Masculinities the author argues for the importance of critical consciousness and attentiveness to the interplay of the biblical text context and the long complex histories of interpretation that play out in the construction of masculinities Locating his reading of 1 Thessalonians within the thickly textured setting of a postcolonial post apartheid South Africa the author seeks to recontextualize Paul providing a nuanced understanding of how Paul's letters exercise authority over both the church and the academy The author maintains that attempts to frame either the biblical text or notions of masculinity as singular and universal perpetuate and reinforce binary formulations church academy global north global south colonizer colonized male female and entrench hierarchies of power The author re reads 1 Thessalonians exploring the fissures that come into view when training a postcolonial and gender critical lens on the biblical text and delivers a refreshing account that is playful and open and porous especially as a conversational piece for masculinity ancient and contemporary

Contextualizing Gender in Early Christian Discourse Caroline Vander Stichele, Todd Penner, 2009-06-30 In this book Vander Stichele and Penner introduce their own gender critical approach to the New Testament and other early Christian writings Building on feminist and post colonial insights they explore the importance of gender in both text and context and discuss the diverse issues involved in interpretation as they relate to gender sex and sexuality The authors also set out their methodology and highlight the various hermeneutical issues involved such as the complexity of gendered and sexed identities in antiquity and the gap that exists between modern and ancient conceptions thereof They further illustrate their gender critical approach with concrete examples from the Acts of the Apostles the letters of Paul and the Acts of Paul and Thecla in order to demonstrate how a gender critical approach works in practice As such this book is unique in terms of its range as well as in the explicit methodological focus that is fostered throughout

planetarity of theology fleshly and political Bodies on the Verge Joseph A. Marchal, 2019-05-24 A collection that resets the terms of interpreting the Pauline letters Interpretation of Paul's letters often proves troubling since people frequently cite them when debating controversial matters of gender and sexuality Rather than focusing on the more common defensive responses to those expected prooftexts that supposedly address homosexuality the essays in this collection reflect the range rigor vitality and creativity of other interpretive options influenced by queer studies Thus key concepts and practices for understanding these letters in terms of history theology empire gender race and ethnicity among others are rethought through queer interventions within both ancient settings and more recent history and literature Features New options for how to interpret and use Paul's letters particularly in light of their use in debates about sexuality and gender Developing approaches in queer studies that help with understanding and using Pauline letters and interpretations differently Key reflections on the two clobber passages Rom 1:26-27 and 1 Cor 6:9 that demonstrate the relevance of a far wider range of texts throughout the Pauline corpus **Challenging Contextuality**, 2024-07-31 Challenging Contextuality Bibles and Biblical Scholarship in Context provides a new and innovative contribution to the study of biblical texts by bringing together current approaches to biblical interpretation The volume sets the agenda for the future of the field and provides a synthesis of approaches to date In doing so it aligns itself with the broadly shared hermeneutical conviction that contextuality is a catalyst for interpretation This applies in equal measure to approaches and methods that are often framed as traditional or mainstream e.g. the methodological canon of the historical critical approach as the offspring of the European Enlightenment and those that are often dubbed contextual e.g. forms of feminist or indigenous interpretation The volume grounds contextual biblical interpretation within the broader landscape of biblical studies and the chapters are all interested in the contexts in which bibles are read Rather than a series of examples of contextual biblical interpretation this book is concerned with what it means to do contextual biblical interpretation how contextual biblical interpretation challenges biblical scholarship and what chances there are for this mode of inquiry What contexts are engaged and elucidated when it comes to bible use What contexts are made visible and invisible How can different contexts be theorized and understood The volume argues that it is not context that matters rather contemporary contexts should be a challenge and a chance for biblical scholarship its present and its future Race and Biblical Studies Tat-siong Benny Liew, Shelly Matthews, 2022-10-20 Classrooms as communities are temporary but the racial effects can be long term The biblical studies classroom can be a site of personal and social transformation To make it a space for positive change the contributors to this volume question and reevaluate traditional teaching practices and assessment tools that foreground white Western scholarship in order to offer practical guidance for an antiracist pedagogy The introduction and fifteen essays provide tools for engaging issues of social context and scriptural authority nationalism and religious identities critical race theory and how race gender and class can be addressed empathetically Contributors Sonja Anderson Randall C. Sense and Stigma in the Gospels Louise J. Lawrence, 2013-10-24 The senses are used within New Testament texts as instruments of knowledge and power and thus constitute important mediators of cultural knowledge and experience Likewise those instances where sensory faculty is perceived to be disabled in some way also become key sites for ideological commentary and critique However often biblical scholarship itself disabled by eye centric and textocentric norms has read sensory disabled characters as nothing more than inert sites of healing their agency including their alternative sensory modes of communication and resistance to oppression remain largely unaddressed In response Louise J Lawrence seeks to initiate a variety of interdisciplinary dialogues with disability studies and sensory anthropology in a quest to refigure characters with sensory disabilities featured in the gospels and provide alternative interpretations of their conditions and social interactions In each instance the identity of those stigmatised as other according to particular physiological social and cultural norms are recovered by exploring ethnographic accounts which document the stories of those experiencing similar rejection on account of perceived sensory difference in diverse cross cultural settings Through this process these disabled characters are recast as individuals capable of employing certain strategies which destabilize the stigma imposed upon them and tactical performers who can subversively achieve their social goals

Ethnicity, Race, Religion Katherine M. Hockey, David G. Horrell, 2018-06-28 This book is open access and available on www.bloomsburycollections.com It is funded by Knowledge Unlatched Religion ethnicity and race are facets of human identity that have become increasingly contested in the study of the Bible largely due to the modern discipline of biblical studies having developed in the context of Western Europe concurrent with the emergence of various racial and imperial ideologies The essays in this volume address Western domination by focusing on historical facets of ethnicity and race in antiquity the identities of Jews and Christians and the critique of scholarly ideologies and racial assumptions which have shaped this branch of study The contributors critique various Western European and North American contexts and bring fresh perspectives from other global contexts providing insights into how biblical studies can escape its enmeshment in often racist notions of ethnicity race empire nationhood and religion Covering issues ranging from translation and racial stereotyping to analysing the significance of race in Genesis and the problems of an imperialist perspective this volume is vital not only for biblical scholars but those invested in Christian Jewish and Muslim identity
