## CELL TRANSPORT

### CHAPTER 4 Section 1

Match the definition on the left with the term on the right.

1. C. release of wastes or cell products from inside to outside a cell
2. D. diffusion of water molecules through a selectively permeable membrane
3. B. continuous movement of particles but no overall change in concentration
4. A. movement of particles from an area of higher concentration to one of lower concentration

- a. diffusion
- b. dynamic equilibrium
- c. exocytosis
- d. osmosis

In the space at the left, write true if the statement is true. If the statement is false, change the italicized term to make the statement true. Write this answer in the blank provided.

False, Active Transport 5. In passive transport, the movement of particles across a membrane requires energy.

- True 6. Endocytosis is a process by which a cell membrane surrounds and takes in material from the environment.
- True 7. A membrane that allows only some materials to pass through shows selective permeability.

Circle the word or phrase that best completes the statement or answers the question.

8. The structure most responsible for maintaining cell *homeostasis* is the  
cytoplasm                      cell wall                      mitochondria                      cell membrane
9. A cell membrane is made up of a(n)  
cholesterol layer                      enzyme layer                      lipid bilayer                      protein layer
10. Which of the following is not a form of passive transport?  
diffusion                      endocytosis                      osmosis
11. Diffusion continues until  
equilibrium is reached                      turgor pressure is reached                      one side has more
12. If a cell is placed in salt water, water leaves the cell by  
osmosis                      diffusion                      active transport                      phagocytosis
13. A cell moves particles from a region of lesser concentration to a region of higher concentration by  
diffusion                      osmosis                      passive transport                      active transport
