Travel Tales Monthly No 6 Dec 2014:

Travel Tales Monthly Michael Brein, Ph.D., 2015-01-07 Michael Brein's Travel Tales Monthly is a monthly bookazine release of simply incredible travel tales. Michael Brein aka The Travel Psychologist has made it his life's passion to interview now more than 1 750 world adventurers and travelers he has met throughout his world travels to more than 125 countries over the last four decades. You wouldn't believe the incredible stories people have told me about their travels, says Michael when he talks about the nearly 10 000 travel tales he has amassed over the years in this way. Stories run the gamut of the good, the wonderful and the magical as well as indeed the bad, the horrible and the truly horrific. These are simply stated great travel stories. Stories are told mainly in the present tense by interviewees but sadly some are revealed about travelers who unfortunately did not live to tell their tales. These have often been related by weary, bleary-eyed travelers who felt that these tales should also be told into the pages of Travel Tales Monthly and then into the volumes of The Travel Psychologist Travel Tales Series ebooks will go the formerly untold tales of close calls, dangers and great escapes, the mystical, spiritual and the paranormal, meeting people, making friends and incredible hospitality, harassment by beggars, hustlers and con artists of all kinds, formidable characters met and phenomenal experiences had and much, much more all in the form of about 200 ebooks covering all sorts of subjects, countries and themes. The intent of Travel Tales Monthly is to present collections of travel tales each month introducing you to the stories as they make their way into The Travel Psychologist Travel Tales Series in the form of completed standalone ebooks in the series. The telling of travel stories by Michael Brein via his Travel Tales Monthly as well as his travel tales ebook series is travel storytelling par excellence but with one significant difference. Michael Brein is the world's first and perhaps only travel psychologist. Thus he tells the travel stories with a particular unique psychological bent; there's a lot of travel psychology behind everyone's sharing of their experiences. With deft and persistence, Michael hones in on and ferrets out the usually heretofore unexplored and untold truly psychological netherworld that lurks just below the surface of most people's travel experiences, bringing them into full view. For instance, what led up to a good or wonderful travel experience? How can we experience more of same? What was behind the horrific, life-threatening or pickpocketing experience that got you caught up in that one horrendous moment? Let's unravel bad experiences piece by piece to see how this might have been avoided in the first place. Let's unfold wonderful travel experiences to see how these may be repeated. What are some of the philosophical and life-changing insights gained from mystical experiences in one's travels? What's it like to experience your roots? How does it feel to be the first white person that others have ever seen? How does it feel like to be touched by a stranger? What is real fear like? On and on, Michael Brein delves into travel experiences from the standpoint of what is interesting, what is to be learned and what is to be gained. How can this be made to happen again? Or NOT at all? Michael Brein is sure that you will be mesmerized and captivated by the stories you read in his Travel Tales Monthly and in his Travel Psychologist Travel Tales Series. The December issue samples drug tourism, the quest to

achieve the sorts of brain states that travelers avidly seek out for the purposes of recreating vegetating meditating cogitating experimenting exploring or seeking enlightenment and personal growth Such tales as Snake Wine The Full Moon Party and Magical Mystical Marrakesh illustrate how travelers wander the world to experiment or explore by ingesting injecting imbibing chewing eating snorting and smoking a variety of drugs substances plants and even medications in order to morph from the normal oft boring mundane ordinary conscious waking state into the brain less or the super conscious in the attempt to achieve various mental states of being that range somewhere betwixt and between the mindless and the mindful It is one thing to dabble in a limited way with substances at home it s another matter altogether to venture into a vast world of the exotic a world that is a veritable candy store of magical mystical drugs and substances that are there for the taking Some travelers are lured to the hypothetical mysterious so called blue pill or the red pill They can not only choose one of these pills to satisfy their exploring their inquisitiveness their mental journeys piled on top of their physical travel journeys they can choose both as well as a panoply of other substances But what are the consequences of doing drugs and substances in a foreign land In one of our featured stories for this month Snake Wine our traveler toys dangerously with drinking willy nilly a concoction of blood and venom of a deadly poisonous snake in a Taiwan night market And even worse and unbelievably in The Full Moon Party our storyteller describes how a couple of hippies get in over their heads by spiking the drinks of two Spanish policeman with LSD How safe or sane is that Next several of our stories describe how travelers seek out the jungles of South America and also South Africa in order to drink a horrid vile tasting concoction called ayahuasca perhaps throwing all caution to the wind and often throwing up violently in the process and for what evidently to engage with some sorts of unknown forces energies spirits or entities even that seem to take over and intervene in their bodies minds and spirits presumably on their behalf Acting in ways often contrary to good common sense we have in this month s issue a number of travelers who dare to taunt fate via taking unknown drugs and substances often in the face of possible dangerous and disastrous consequences due to the unknowns involved in doing so All in all you will also see some aspects of travel that you yourself may not ever have even considered before And once again you will certainly experience vicariously those odd vagaries of travel life that can await you and can suddenly appear just around the corner at about any turn along the way Winding up this month s issue is Michael Wiese our guest contributor an acclaimed author filmmaker and world traveler who describes his own bouts with the wild wacky and mysterious world of Mother Ayahuasca

East European Accessions Index, 1960 **The Mountaineer**, 1927 **How the Arabian Nights Inspired the American Dream, 1790-1935** Susan Nance, 2009-06-01 Americans have always shown a fascination with the people customs and legends of the East witness the popularity of the stories of the Arabian Nights the performances of Arab belly dancers and acrobats the feats of turban wearing vaudeville magicians and even the antics of fez topped Shriners In this captivating volume Susan Nance provides a social and cultural history of this highly popular genre of Easternized performance in America up to the Great Depression According to Nance these traditions reveal how a broad spectrum of Americans including recent immigrants and impersonators behaved as producers and consumers in a rapidly developing capitalist economy In admiration of the Arabian Nights people creatively reenacted Eastern life but these performances were also demonstrations of Americans' own identities Nance argues The story of Aladdin made suddenly rich by rubbing an old lamp stood as a particularly apt metaphor for how consumer capitalism might benefit each person The leisure abundance and

contentment that many imagined were typical of Eastern life were the same characteristics used to define the American dream The recent success of Disney s Aladdin movies suggests that many Americans still welcome an interpretation of the East as a site of incredible riches romance and happy endings This abundantly illustrated account is the first by a historian to explain why and how so many Americans sought out such cultural engagement with the Eastern world long before geopolitical concerns became paramount

Approach ,1989 The naval aviation safety review Legal Intelligencer ,1867 Border Security Peter Chambers,2017-09-27 What kind of a world is one in which border security is understood as necessary How is this transforming the shores of politics And why does this seem to preclude a horizon of political justice for those affected Border Security responds to these questions through an interdisciplinary exploration of border security politics and justice Drawing empirically on the now notorious case of Australia the book pursues a range of theoretical perspectives including Foucault s work on power the systems theory of Niklas Luhmann and the cybernetic ethics of Heinz Von Foerster in order to formulate an account of the thoroughly constructed and political nature of border security Through this detailed and critical engagement the book s analysis elicits a political alternative to border security from within its own logic thus signaling at least the beginnings of a way out of the cost cruelty and devaluation of life that characterises the enforced reality of the world of border security

Mark Twain, Shelley Fisher Fishkin, Barry Moser, 2011-07 For those unaware as I was until I read this book that Mark Twain was one of America's early animal advocates Shelley Fisher Fishkin's collection of his writings on animals will come as a revelation Many of these pieces are as fresh and lively as when they were first written and it's wonderful to have them gathered in one place Peter Singer author of *Animal Liberation* and *The Life You Can Save* A truly exhilarating work Mark Twain's animal friendly views would not be out of place today and indeed in certain respects Twain is still ahead of us claiming correctly that there are certain degraded practices that only humans inflict on one another and upon other animals Fishkin has done a splendid job I cannot remember reading something so consistently excellent Jeffrey Moussaieff Masson author of *When Elephants Weep* and *The Face on Your Plate* Shelley Fisher Fishkin has given us the lifelong arc of the great man's antic hilarious and subtly profound explorations of the animal world and she's guided us through it with her own trademark wit and acumen Dogged if she hasn't Ron Powers author of *Dangerous Water* A Biography of the Boy Who Became Mark Twain and *Mark Twain A Life* The New York Times Index.
