LISTENING TRANSCRIPTS

1.

- Man:** Well, I found the holiday of my dreams!
- Woman:** Oh no, not another one of your crazy trips.
- Man:** This one isn't crazy, it's educational. You can go with the The Great Canadian Adventure Company in a small research boat underwater to study the wreckage of the Titanic up close and personal!
- Woman:** Wow, that sounds exciting! You should go for it then.
- Man:** There's only one problem...
- Woman:** What's that?
- Man:** It costs \$40,000 to participate!

2.

- Woman:** Are you excited about flying to Australia?
- Man:** Of course. I've never been on a plane before.
- Woman:** Are you scared?
- Man:** Not at all. I'm really looking forward to it.
- Woman:** It'll be a long flight to Sydney. That will be a bit boring. Do you have any stops?
- Man:** Yes we stop in Dubai for a few hours.
- Woman:** Nice. You can do some shopping in the airport while you're waiting.

3.

- Man:** That's right. I need to change the date of the ticket. I need to be home earlier than the 25th. Is it possible to return on the 23rd? (pause) Hmm... that's too bad. I suppose I could do the 26th, if I can change the arrival date to the 15th. (pause) Really? Great, as long as I'm there five days, it doesn't really matter when I get there or leave. I still get the window seat, right?

4.

- Man:** I used the finger scanner at the supermarket the other day, it's really cool.
- Woman:** I read about those. They've been around for a while now. I still don't like the idea of a machine scanning your fingerprint. It's like someone is following your every move.
- Man:** But it's so convenient! It knows who you are, and takes the money right from your bank account. You don't need to carry money or anything with you ever again!
- Woman:** But isn't it dangerous?
- Man:** Of course not. It's easier for someone to steal your credit card than your fingerprint.

pedagogy of vocational programmes in the field as a vocational subject. It therefore focuses on theoretical approaches to teaching learning and assessment and how they can inform the way in which we plan and deliver programmes of Travel and Tourism studies. It examines how we teach programmes related to preparation for working in the industry programmes such as the National Diplomas specific professional qualifications and of course the new 14 19 Diplomas. It is intended to inform and stimulate to further study all likely to be involved in the development and delivery of such programmes. This could include those engaged in initial teacher training whether experienced practitioners or post graduate students subject mentors now required to support new teachers experienced teachers unfamiliar with the subject who may be required to teach on these programmes and also administrators needing to familiarise themselves with the nature content and delivery of the subject as an innovation to the curriculum. Therefore although initially it examines the nature of the industry and raises discussion of issues pertinent to the delivery of related vocational programmes it is essentially a useful resource book with a wealth of information about the exciting curriculum opportunities that the subject presents. Through interactive exercises case studies and exemplar resources it provides the reader with a foundation of usable activities to develop a variety of teaching and learning strategies which will enhance their delivery of the Travel and Tourism curriculum.
