Twentieth-century Travel Literature in French Charles Forsdick, Feroza Basu, Siobhán Shilton, 2006 From the postcolonial perspective of the early twenty first century the importance of travel literature for considerations of national and international cultures and identities has become increasingly apparent Travel literature in French has however received little critical scrutiny This book contributes to contemporary reassessments of the form in a number of disciplines focusing specifically on the discourses and contexts of travel in twentieth century texts written in French Its scope is interdisciplinary involving theoretical and generic considerations as well as a historical overview of colonial and postcolonial texts The book provides essential reading for all students of travel literature in French and of travel literature in general **Britain and**

the Narration of Travel in the Nineteenth Century Kate Hill, 2017-05-15 Interrogating the multiple ways in which travel was narrated and mediated by and in response to nineteenth century British travelers this interdisciplinary collection examines to what extent these accounts drew on and developed existing tropes of travel The three sections take up personal and intimate narratives that were not necessarily designed for public consumption tales intended for a popular audience and accounts that were more clearly linked with discourses and institutions of power such as imperial processes of conquest and governance Some narratives focus on the things the travelers carried such as souvenirs from the battlefields of Britain's imperial wars while others show the complexity of Victorian dreams of the exotic Still others offer a disapproving glimpse of

Victorian mores through the eyes of indigenous peoples in contrast to the imperialist vision of British explorers Swiss hotel registers guest books and guidebooks offer insights into the history of tourism while new photographic technologies the development of the telegraph system and train travel transformed the visual and even the conjugal experience of travel The contributors attend to issues of gender and ethnicity in essays on women travelers South African travel narratives and accounts of China during the Opium Wars and analyze the influence of fictional travel narratives Taken together these essays show how these multiple narratives circulated cross fertilised and reacted to one another to produce new narratives new objects and new modes of travel *Celebrated Women Travellers of the Nineteenth Century* William Henry Davenport Adams,1903 [Images of Irishness in Nineteenth-Century Travel Literature](#) Dimitrios Kassis,2018-10-23 Since its annexation to the British Crown Ireland has never ceased in forming the subject of an ardent national debate in Great Britain which resulted in the demonisation of the Celtic race as subaltern and backward In its effort to forge a national identity the British Empire adopted several collective identities on the basis of the racial and cultural findings of the 1850s which gave a new impetus to the systematic view of England as a typically Anglo Saxon culture staunchly opposed to the alleged Celtic backwardness and the rebellious spirit of the Irish In view of the rising anti Irish wave of sentiment in the British imperialist imagination Irish nationalism was manifest through a series of uprisings the majority of which sought to link the country to its ancient Celtic heritage The Celticist movements of Young Ireland and the Irish Revival revealed the need of Irish Nationalists to acquire a new collective identity which proved to be a strenuous task given the complex historical and ethnic background of the Irish This book investigates the extent to which Irish identity is affected by the racist and nationalist discourses of the nineteenth century which emerged to either defend or oppose the image of Ireland as a cultural construct The travelogues explored here include some of the most fundamental representations of Ireland by prominent Irish and British travel writers whose impressions of the island might be linked to the utopian and dystopian dimensions of the country

[Travel Writing in the Nineteenth Century](#) Tim Youngs,2006-09-01 Long popular with a general readership travel writing has in the past three decades or so become firmly established as an object of serious and multi disciplinary academic inquiry Few of the scholarly and popular publications that have focused on the nineteenth century have regarded the century as a whole This broad volume examines the cultural and social aspects of travel writing on Africa Asia America the Balkans and Australasia **Twenty-First-Century Perspectives on British Travel Writing** Samia Ounoughi,Emmanuelle Peraldo,Anne-Florence Quaireau,2025-03-11 *Twenty First Century Perspectives on British Travel Writing* evidences the evolution of travel writing studies over the last two decades and points to innovative ways to study this heterogeneous genre This volume seeks to build bridges between the study of travel writing and disciplines of sciences and human sciences so that the analyses of travel texts images and objects lead to interdisciplinary enrichment This volume revisits the complicated relationship between fact and fiction science and literature and the world and the word through transdisciplinary approaches

Through case studies of British travel writing from the eighteenth to the twenty first centuries the contributors provide illustrations of the fruitful intersection of travel writing studies with other methodologies such as literary studies gender studies postcolonial studies visual studies areal studies engineering studies food studies animal studies ecocriticism posthumanism and geocriticism
