Tree Surgery for Beginners Patrick Gale, 2016-07-05 Bestselling British author Patrick Gale chronicles the misadventures of a misfit tree surgeon in this modern day myth of self discovery The Guardian It was in the ancient cathedral city of Barrowcester that eight year old Lawrence Frost began his love affair with the trees that had sprung up on the site of an ancient plague grave and unconsecrated resting place for the city s outcasts And it is there that the thirty two year old forester and arborist returns one night after sleeping out in his truck in his beloved Wumpett Woods to find blood staining the kitchen sink and floor of his farmhouse his wife and daughter gone Lawrence is suspected of beating his wife Bonnie for cheating on him with an American architect It appears Bonnie and their daughter Lucy have done the sensible thing and fled But when a corpse turns up burned beyond recognition the police decide to comb Wumpett Woods in search of a second body Soon Lawrence is branded a murderer and arrested Then Bonnie and Lucy turn up alive and Lawrence is cleared But he has lost his family He takes a five hundred passenger cruise on the SS Paulina where a chanteuse of a certain age and uncertain gender captivates him Lawrence begins a new journey a spiritual and erotic odyssey that takes him back to the buried secrets of his past and then onward toward the future From the English provinces to the Caribbean to America and the giant redwoods of northern California filled with Shakespearean twists and turns and happy coincidences Tree Surgery for Beginners is a sprawling Dickensian carnival of a book With multiple viewpoints and cameo appearances that include a vacillating tiger it sweeps readers along as Lawrence himself learns to move forward By turns moving and tragic this is a triumphant novel of growth love and healing from the bestselling author of Notes from an Exhibition *House & Garden*, 1926 **Gardeners' Chronicle of America**, 1917 House Beautiful, 1917 **Country Life**, 1911 Horticulture, 1917 **New Outlook**, 1917 **The Garden Magazine**, 1910 **The Tree Experts** Mark Johnston, 2021-08-02 Trees are now in the public eye as never before The threat of tree diseases the felling of street trees and the challenge of climate change are just some of the issues that have put trees in the media spotlight At the same time the trees in our parks gardens and streets are a vital resource that can deliver environmental social and economic benefits that make our towns and cities attractive green and healthy places Ever since Roman times when amenity trees were first planted in Britain caring for those trees has required specialist skills This is mainly because of the challenges of successfully integrating large trees into the urban environment and the risks involved in working with them often at height and in close proximity to people buildings and roads But who are the people with the specialist expertise to care for our amenity trees While professionals such as horticulturists landscape architects conservationists and foresters have a role to play it is the arboriculturists who are the tree experts For centuries arboriculture was often synonymous with forestry or considered an aspect of horticulture until it emerged in the nineteenth century as a separate discipline There are now some 22 000 people employed in Britain s arboricultural industry including practical tree surgeons and arborists local authority tree officers and arboricultural
