

# The TriPac™ System: *Nothing Compares*

*Since its introduction, the TriPac Hybrid Idle Reduction and Temperature Management System has become the number one Auxiliary Power Unit (APU) system in the industry for one major reason: it outperforms the competition.*

**Unmatched Service & Support.** The TriPac system is backed by the Thermo King dealer network, which provides expert installation, factory-certified technicians and genuine OEM parts at over 200 locations across North America.

**Fuel Savings.** With over 60,000 units in service, the fuel-saving advantages of the TriPac design vs. generator-based designs has become even more apparent. The TriPac system runs only when you need it, saving you significantly more money on fuel than generator solutions.

**Emissions Regulations/CARB compliance.** As the expert in idle compliance, Thermo King designed the TriPac system to provide you with a solution for nationwide operation. The optional Diesel Particulate Filter (DPF) allows you to operate coast-to-coast and border-to-border while helping you stay compliant with the confusing variety of regulations regarding engine idling.

**Preferred by Drivers.** Drivers look for and stay with the TriPac system for what it provides (comfort, reliability, seamless operation, realized fuel savings) and what it does not (noise, uncertainty, limited service options).

## With these New Features, the TriPac System does even more for you!

**Greater Fuel Savings.** Programmable settings within the controller means the TriPac system doesn't heat or cool the cab during out-of-service days; it simply monitors and maintains battery voltage and engine coolant temperatures so that the tractor starts dependably.

**Stainless Steel Skins.** Dress up your rig with our optional stainless covers. Polished to a high gloss, they look good for the long haul and can keep up with even the showiest of rigs.

**Closed Loop Cooling (CLC).** If you frequently operate in warm climates or simply prefer that the TriPac system not tie into the tractor engine coolant, choose the CLC option. The TriPac will run independently of the tractor engine coolant and still provide the battery charging and cab comfort options you demand.

**Improved Performance.** Our engineers are constantly working to improve the TriPac system, making the best even better.
