Eric Gershwin,2013-04-17 Those who do not feel pain seldom think that it is felt SAMUEL JOHNSON The Rambler no 48 September 1 1750 Who among us has not experienced the suffering of a patient with chronic disease who in addition to the vicissitudes of fatigue anxiety and frustration must also deal with the suffering of pain Who among us has not considered and then reconsidered whether a patient s complaints are worthy of a narcotic and thence worried about the social and legal implications of chronic use Who among us has not refused pain medications to our patients for fear that use was turning into abuse Finally who among us would not have liked a clinical guide to a myriad of syndromes all of which have pain as their common denominator in the hopes of developing some strategy to prioritize treatment Our purpose in preparing The Pain Management Handbook is to provide the information needed by clinicians to develop strategies that optimize pain management It is the goal of the editors and authors that the present handbook above all else will be clinically useful Its aim is to provide practical information regarding the diagnosis and treatment of disorders causing pain along with tables and graphics to provide the busy practitioner with rapid access to relevant data **Pocket Guide Pain Management** Claudia Spies,Benno Rehberg,Stephan A. Schug,Gunnar Jaehnichen,Sarah Harper,2008-09-02 In the United States about 50 million people suffer from recurrent or chronic pain and nearly 10% of adults take medication for pain

daily Further the disease burden of pain is expected to grow relative to other illnesses and conditions Despite the advances in pain medicine most physicians are not equately trained to treat chronic or even acute pain As in other fields of medicine pain medicine has long been dominated by expert opinion relying on personal expertise and only recently has a systematic evaluation of treatments in the terms of evidence based medicine been performed And also as in other fields of medicine a lot can be achieved in pain medicine when certain basic diagnostic and therapeutic pathways are followed correctly more than can be achieved when only a few specialists are able to treat these conditions Standard operating procedures SOPs are supposed to be concise practical aids for clinicians standardizing treatments diagnostic pathways and procedures in one of sometimes many possible ways Although based on the available evidence they are not evidence based guidelines and are not supposed to replace such guidelines On one hand evidence based medicine often leaves many options open since in many cases the available evidence is not sufficient to recommend a specific option On the other hand there might be reasons due to clinical practice e.g.
