Banking and Economic Rent in Asia Yasushi Suzuki,Mohammad Dulal Miah,Manjula K. Wanniarachchige,S.M. Sohrab Uddin,2017-03-31 A stable and sound financial system plays a critical role in mediating funds from surplus units to investors making it a prerequisite for economic development Financial intermediaries have been vulnerable to adverse changes in the local and global economy and experienced frequent bubble and bust episodes historically Analyses of financial crises reveal that the incentive created by neo liberal financial principles is inconsistent with stable financial systems and viable solutions require structuring institutions in a way that incentives are well aligned with the fundamental principles of financial systems By drawing on the theoretical framework of the financial restraint model this book analyses financial sectors rents or bank rents and their effects on banks performance and stability and presents evidence on the relationship between rent and incentive through case studies of both developed and developing countries *IFC Annual Report* International Finance Corporation,1995 **Dilemmas and Challenges in Islamic Finance** Yasushi Suzuki,Mohammad Dulal Miah,2018-03-09
