Publications Combined: Fake News, Conspiracy Theories, and Lies: Information Laundering In the 21st Century ,2018-09-06 The purpose of this research broadly speaking is to expose the threat that fake news poses to our national security This thesis answers the question Can the information laundering model or a modified version of it be used to explain how the internet is exploited to spread fake news and the resulting threat to the United States I assert that a well

crafted narrative whether true or false can be spread rapidly online due to the accessibility and interconnectedness of the internet ecosystem I then articulate how these narratives can be further accelerated and disseminated when propagandists take advantage of existing processes that improve the customization ease of access and availability of information online I do this by modifying the information laundering model and then using the new model to examine the interconnectedness of search engines blogs social networking platforms and media academic outlets and how these connections can be exploited to launder false or purposefully misleading information into public discourse Finally I demonstrate how this process allows adversarial nations criminals and malicious actors to increase public discord undermine democracy and threaten Americans physical and cognitive security Contains the following studies 1 Fake News Conspiracy Theories and Lies An Information Laundering Model for Homeland Security 2 THE COMMAND OF THE TREND SOCIAL MEDIA AS A WEAPON IN THE INFORMATION AGE 3 PUTIN S PROPAGANDA WAR IS HE WINNING 4 Cyber Terrorism and Cyber Crime There Is a Difference 5 CYBERDETERRANCE IN 2035 REDEFINING THE FRAMEWORK FOR SUCCESS 6 Countering Russian Active Measures
