Bodymods (Part One) Zoe Brown, 2025-02-19 One hundred years in the future forty seven year old AUGUST HALL known as Typhon to his fellow runners is a scav or scavenger salvaging the ruins of old New York for luxury items and consumer goods left behind amid the wave of Climate Collapse related Megastorm disasters that destroyed the old city beginning in the middle of the Twenty First Century He sells what he finds to a black market exchange within the seedy underbelly of New Manhattan a climate shielded bubble city in which tens of millions of survivors now reside in order to pay down his debt to one wealthy and conniving underworld magnate named TYCHO MORELLO the head of the powerful Genovese Exchange He is poor a member of the lowest rung of the social order within this brave new world and has lived a life of deprivation and dashed hopes for all of his nearly five full decades of life But then while on a scavenging run outside the New City late one night in the midst of a Megastorm August comes across a find of rare and wondrous possibility a decades old NuLife Bodymod Bio Augment the sort of once experimental DNA re writing and AI fueled body altering nano technology that could completely transform a person into somebody new anybody whom that person wanted to be Older younger taller shorter fitter stronger more handsome whatever one desires Initially intending to sell the Bodymods device on consignment to the black market exchange to which he is under contract in repayment of his debt August suddenly has a change of heart Driven by thoughts of a gorgeous and enchanting inky blue black haired female nightclub singer and lounge hostess whom he has long harbored a secret passion for the experienced scavenger decides to hold onto the remarkable bit of body altering technology which he has recovered and to use it on himself hoping to transform himself into the sort of tall and strong far younger looking and more ruggedly handsome version of himself that he imagines will be able to seduce the lovely MINA away from her dastardly devious employer lover Tycho Morello Unfortunately after programming the AI Interface for the device and attaching it to the back of his neck later on that evening before dropping off to sleep August wakes up on the following morning to discover that things have NOT AT ALL gone according to plan Roughly 32 000 words in length Bodymods Part One is the first installment in a sexy new on going serial story about Slow Gradual Unintended Gender Transformation Feminization and Titillating Self Discovery via Experimental Futuristic AI Body Altering Technologies Readers should be advised that the main character s transformation into a woman merely begins in this installment and will not be completed until later in the series No AI was used in the production of this title I hope you enjoy yourself [American Anatomies](#) Robyn Wiegman, 1995 In this brilliantly combative study Robyn Wiegman challenges contemporary clichés about race and gender a formulation that is itself a cliché in need of questioning As part of what she calls her feminist disloyalty she turns a critical even skeptical eye on current debates about multiculturalism and difference while simultaneously exposing the many ways in which white racial supremacy has been reconfigured since the institutional demise of segregation Most of all she examines the hypocrisy and contradictoriness of over a century of narratives that posit Anglo Americans as heroic

agents of racism's decline Whether assessing Uncle Tom's Cabin lynching Leslie Fiedler's racist mapping of the American novel the Black Power movement of the 60s 80s buddy films or the novels of Richard Wright and Toni Morrison Wiegman unflinchingly confronts the paradoxes of both racism and antiracist agendas including those advanced from a feminist perspective American Anatomies takes the long view What epistemological frameworks allowed the West from the Renaissance forward to schematize racial and gender differences and to create social hierarchies based on these differences How have those epistemological regimes changed and not changed over time Where are we now With painstaking care political passion and intellectual daring Wiegman analyzes the biological and cultural bases of racial and gender bias in order to reinvigorate the discussion of identity politics She concludes that for very different reasons identity proves to be dangerous to minority and majority alike

The Gender of Modernity Rita FELSKE, 2009-06-30 In an innovative and invigorating exploration of the complex relations between women and the modern Rita Felski challenges conventional male centered theories of modernity She also calls into question those feminist perspectives that have either demonized the modern as inherently patriarchal or else assumed a simple opposition between men's and women's experiences of the modern world Combining cultural history with cultural theory and focusing on the fin de siècle Felski examines the gendered meanings of such notions as nostalgia consumption feminine writing the popular sublime evolution revolution and perversion Her approach is comparative and interdisciplinary covering a wide variety of texts from the English French and German traditions sociological theory realist and naturalist novels decadent literature political essays and speeches sexological discourse and sentimental popular fiction Male and female writers from Simmel Zola Sacher Masoch and Rachilde to Marie Corelli Wilde and Olive Schreiner come under Felski's scrutiny as she exposes the varied and often contradictory connections between femininity and modernity Seen through the lens of Felski's discerning eye the last fin de siècle provides illuminating parallels with our own And Felski's keen analysis of the matrix of modernism offers needed insight into the sense of cultural crisis brought on by postmodernism

Explicit Utopias Amalia Ziv, 2015-07-06 Provides an incisive account of women's porn and queer porn of the 1980s and 1990s Explicit Utopias explores a problem that has long haunted feminist lesbian and queer critics the obstacles to imagining women's desire and sexual agency Pornography is one arena in which women have actively sought to imaginatively overcome this problem yet pornography has also been an object of passionate feminist contention Revisiting the feminist sex wars of the 1980s Amalia Ziv offers a comprehensive and thoughtful reassessment of the arguments and concerns of both camps tying these early debates to the contemporary surge of concern over the pornification of culture She also sets out to rectify the lack of critical attention to marginal sexual representations by examining the feminist queer and psychoanalytic literature on several key issues including fantasy the phallus identification and gender performativity

Radical Eroticism Rachel Middleman, 2018-01-16 In the 1960s the fascination with erotic art generated a wave of exhibitions and critical discussion on sexual freedom visual pleasure and the nude in contemporary art

Radical Eroticism examines the importance of women's contributions in fundamentally reconfiguring representations of sexuality across several areas of advanced art performance pop postminimalism and beyond This study shows that erotic art made by women was integral to the profound changes that took place in American art during the sixties from the crumbling of modernist aesthetics and the expanding field of art practice to the emergence of the feminist art movement Artists Carolee Schneemann Martha Edelheit Marjorie Strider Hannah Wilke and Anita Steckel created works that exemplify these innovative approaches to the erotic exploring female sexual subjectivities and destabilizing assumptions about gender Rachel Middleman reveals these artists' radical interventions in both aesthetic conventions and social norms **Premodern**

There are few topics in sex research as compelling and confounding to researchers clinicians and the general public as that of transsexualism Upending normative notions of gender eroticism and identity it poses significant scientific and clinical challenges The book addresses a fascinating and largely unexplored topic within the study of transsexualism The feelings and desires of conventionally masculine men who are attracted to women yet want to become women themselves Through a collection and discussion of vivid first person narratives the book provides an in depth examination of these men s unusual propensity to be sexually aroused by the thought of themselves as women and how these men s sexual feelings influence their decisions to seek or undergo sex reassignment These narratives about autogynephilia by autogynephilic male to female MtF transsexuals provide the first comprehensive documentation of the erotic ideation that underlies the most common form of MtF transsexualism The narratives provide empirical evidence for Blanchard s theory of MtF transsexual motivation and thus are of interest to researchers and theorists studying the phenomenology of MtF transsexualism The narratives are likely to be eye opening to psychologists psychiatrists physicians and other professionals who work with MtF transsexuals Most clinicians probably do not fully appreciate the erotic underpinnings of their clients condition A better understanding of their clients autogynephilic feelings and motivations would enable these professionals to provide more empathetic and effective clinical care *Tikkun* ,1999 Turning Into a Girl Grace Mansfield,2021-11-27
