## **Transformation From Old Paradigms To Creative Change:**

**Transformation** Jeremy Lopez, 2014-08-01 Sometimes transitions are rough The way we re doing things isn t working for us anymore but we re not sure how to transition I d like to share with you what I ve learned about leaving the shore of an old paradigm for the clear waters of the new A paradigm is a thought a mindset that has been implanted within your consciousness You have contemplated the thought for a long time and because of that it has created a lodging within the consciousness of your mind Jesus has a way of sharing about seeds and soil He talks about some seed yielding fruit thirty fold It finds its way into the land where it can go deep and begin to grow and germinate to find nourishment in the soil Sometimes the seed of God s speaking falls on stony ground **Wisdom, Consciousness, and the Future** Thomas

Lombardo, 2011-06-17 **Wisdom Consciousness and the Future** Collected Essays Thomas Lombardo Ph D Center for Future Consciousness **Wisdom Consciousness and the Future** is a profound deeply important and timely book that concerned people and change agents everywhere will want to read Copthorne Macdonald The Wisdom Page As a college professor and teacher of psychology philosophy and the future Tom Lombardos mind has been drawn toward such questions as How will the human mind evolve in the future In fact how should the human mind evolve and improve itself What might be the standards and ideals that guide this evolution And what role does ethical development or evolution play in this process The twenty previously published articles collected together in **Wisdom Consciousness and the Future** chronicle the development of Dr Lombardos ideas on these related questions and topics and together constitute a theoretical perspective on the nature of the human mind on how to best educate and evolve the human mind in the future and how to integrate into this vision the central importance of both future consciousness as a key dimension of human consciousness and ethical character virtues True to its title three key themes emerge in this collection wisdom consciousness and the future and all three concepts tie into the authors main contribution to the field of futures studies future consciousness Numerous essays for example **Evolving Future Consciousness through the Pursuit of Virtue** and **The Evolution and Psychology of Future Consciousness** address the nature of future consciousness a term Dr Lombardo defines as the complex set of mental capacities all humans possess for imagining conceptualizing and approaching the future Aside from describing the psychological make up of future consciousness which includes emotional motivational cognitive and personal dimensions the author also explains in numerous essays such as **Developing Constructive and Creative Attitudes about the Future** how to proactively enhance ones future consciousness Other essays deal directly with consciousness and the human mind in the broadest sense as in **The Future Evolution of the Ecology of Mind** and connect this general area of inquiry with the futurist question of how consciousness and mind might evolve in the future Dr Lombardo proposes that the progressive emergence of cosmic consciousness is the central evolutionary trajectory of the human mind Hence this book contains essays on both consciousness of the future and consciousness in the future While the discussion of consciousness and the future fascinates

in its own right Dr Lombardo is a holistic and deep thinker who searches for connections among myriad philosophical topics A number of essays address the question of ethics and virtue and how such concepts connect with both future consciousness and the evolution of consciousness in the future He then expands on this theme to explore how virtue applies to the goals of higher education in essays such as Ethical Character Development and Personal and Academic Excellence In thinking through the concept of virtue and how it applies to consciousness education and the future Dr Lombardo emphasizes the one key virtue wisdom that provides the center of gravity around which all other character virtues revolve Indeed if any one concept unites the majority of essays in this collection it is wisdom In The Wisdom of Future Consciousness the author argues that wisdom is the highest expression of future consciousness and systematically describes the numerous connections between wisdom and heightened future consciousness Further according to the author wisdom is the key ideal that we should model and teach within education now and in the future This argument     *Metamorphosis - Structures of Cultural Transformations* Jürgen Schläeger, 2005     **Global Awakening** Michael Schacker, 2012-12-14 Shows how we must make deep changes to complete our paradigm shift from the old mechanistic worldview to the new organic worldview Reveals the distinct stages of paradigm shifts through the ages including the 18th century Enlightenment and the critical stage of our current shift Explains how the new organic worldview began with Goethe and Kant Offers solutions for each of us to be able to realize and make the deep changes needed for global regeneration In Global Awakening Michael Schacker shows that hidden within our global crises is a positive future for the planet Sharing his 30 years of intensive research into the history of change as well as the evolution of consciousness and regenerative science Schacker explains how our current shift from the old mechanistic worldview to a new organic worldview based on biological models follows the same pattern as other paradigm shifts across history including the 18th century Enlightenment and the American Revolution He reveals the creative geniuses who have contributed to the birth of the organic worldview beginning with Goethe Kant and Hahnemann Exposing the scientific and social forces that drive paradigm shifts he details the stages every paradigm shift progresses through the early Enlightenment the conservative backlash the intensive phase and the transformational phase leading to the Organic Shift Explaining that we are currently in the throes of the paradigm flip the critical last phase of our paradigm shift Schacker shows how the mechanistic worldview is crumbling around us and nothing but a complete transformation in the way we think will keep us from the path of total self destruction Providing a map to overcome the allure of the simplistic mechanical model that has spawned countless unsustainable practices and problems from global warming to intense economic disparities the author offers concrete solutions showing how each of us can use our talents skills and time to make the deep changes needed for global regeneration     2010 Boston: The Changing Contours of World Mission and Christianity Todd M. Johnson, Rodney L. Petersen, Gina Bellofatto, Travis Myers, 2012-01-09 In November 2010 three hundred faculty students and others interested in Christian mission gathered in Boston to consider how the world the global church and

Christian missions have changed since the World Missionary Conference in Edinburgh in 1910 and to reflect on the three previous centennial conferences Tokyo 2010 in May Edinburgh 2010 in June and Cape Town 2010 in October Participants at 2010Boston were not delegates from churches and mission agencies but were students and scholars of various aspects of world Christianity representing the Anglican Episcopal Evangelical mainline Protestant Orthodox and Roman Catholic traditions This conference volume consists of nine keynote messages five student presentations three reports from the other conferences and additional materials from or about 2010Boston The keynote messages address the history of mission especially in and from Boston and the current global context for mission and suggest modes for future Christian engagement with the world and one another Student papers address such conference themes as unity in mission mission and postcolonialism and discipleship in context The closing chapter surveys the conference s eight themes and summarizes the outcomes of the 2010Boston process
