Ski Style Annie Gilbert Coleman, 2004 Coleman traces skiing from its Norse roots and Alpine influences through the utility of ski travel in the winter Rockies to the rise of Colorado resorts Much more than a history of the sport her work explains how the recreation industry sold the experience of skiing and created mythic mountain landscapes with real problems and a ski culture that exalts celebrity and status over the physical act of skiing Jacket

Seeing Nature Through Gender Virginia Scharff, 2003 Environmental history has traditionally told the story of Man and Nature Scholars have too frequently overlooked the ways in which their predominantly male subjects have themselves been shaped by gender Seeing Nature through Gender here reintroduces gender as a meaningful category of analysis for environmental history showing how women's actions desires and choices have shaped the world and seeing men as gendered actors as well In thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world Virginia Scharff and her coauthors explore interactions between gender and environment in history Ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes They also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies Each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms Here are considerations of the ways we study sexuality among birds of William Byrd's masking sexual encounters in his

account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters own gendered identities Some are playful as in a piece on the evolution of snow bunnies to shred betties Others are dead serious as in a chilling portrait of how endocrine disrupters are reinventing humans animals and water systems from the cellular level out Aiding and adding significantly to the enterprise of environmental history Seeing Nature through Gender bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we ve engraved on ourselves and on the planet Forbes ,2001 *The Web's Greatest Hits* Lynie Arden,2005 **Ski** ,1988-09 **Ski** ,1990-09 **Ski** ,1989-09 Giant Robot ,2002 *The Standard Periodical Directory* ,2003 *Folio* ,1996 **SIA's Snow Sports Book** ,1998 **Brill's Content** ,1999 **Ski** ,1989-09 **Technical Graphics Communications** Gary R. Bertoline,2009 Bertoline places a strong emphasis on design and industrial applications Examples are found throughout the text reinforcing the real and practical ways that technical graphics skills are used in real companies This text presents both traditional and modern approaches to technical graphics providing engineering and technology students with a strong foundation in standard drafting practices and techniques Ski Area Management ,1998 **SRDS Consumer Magazine Advertising Source** ,2006 **High Tech Hot Shots** Celeste Baine,2004 Written for high school and pre engineering college students this book compiles resources information and stories of engineers who design new and improved products Ranging from the design and construction of stadiums and courses to the design and manufacture of sporting equipment and clothes the book reveals what you need to know to work in this industry and find a rewarding job as a sports engineer Explore what types of engineers are involved in extreme sports like skateboarding to the more traditional sports like tennis and get advice from engineers about how to succeed as a sports engineer
