Travelling Man On The Road With The Searchers:

Travelling Man Frank Allen,1999 Frank Allen fort ller om sin tid som basguitarist i den legendariske engelske popgruppe The Searchers som havde deres storhedstid i 1960erne **The Encyclopedia of Popular Music** Colin Larkin,2011-05-27 This text presents a comprehensive and up to date reference work on popular music from the early 20th century to the present day **Gathered From Coincidence** Tony Dunsbee,2015-03-01 Combining the personal memories and critical analysis of a self confessed pop addict with a wealth of contemporary documentary evidence Gathered From Coincidence reconstructs a truly momentous era to tell the story of the music of the Sixties year by year By tracing in parallel the origins and development of the recording careers of major talents on both sides of the Atlantic the Beatles the Rolling Stones the Beach Boys Bob Dylan Dusty Springfield and many more besides this account shows how they traded creativity with one another All the great Sixties hits as well as a host of less well known gems are described in the context of the charts of the day tracking the ups and downs of different trends as they came and went such as rock n roll rhythm blues psychedelia modern folk the concept album or supergroups But beyond this each chapter also places the music in a broader historical and cultural setting of landmark events at home and abroad the space race the Profumo affair the Cold War Vietnam the growth of satire to show how as the decade unfolded the paths of pop and current affairs drew ever closer together If you thought the Sixties were just about the fleeting dreams of hippies in the Summer of Love then think again This book will open your eyes to a far reaching imaginative legacy and how it came to shape pop music as a dazzling art form in its own right

Charlie Watts Alan Clayson,2011-08-01 Often appearing as a mere onlooker who didn t really want to be there Charlie Watts the silent Stone embraced fame reluctantly Yet ironically if any one of the Stones could have made it big without the rest it surely would have been Watts who showed as much early promise as an artist as he did a jazz drummer Understated and seemingly underwhelmed Watts provided a stark contrast to the brash Keith Richards and the bohemian Brian Jones and was in some ways an unlikely candidate for the drummer s stool Forty years later however he is regarded by many as the one factor that has kept the band going bringing vitality to their music as well as artistry to their album covers Charlie Watts remarkably the first biography of the drummer continues Alan Clayson s study of The Rolling Stones with an intriguing insight into the life of the man who has been keeping time for the Stones for over four decades Alan Clayson is a noted writer and author of many musical biographies including The Beatles Box biography set **The Encyclopedia of Popular Music: Rich, Young and Pretty - Swift, Richard** Colin Larkin,2006 Containing 27 000 entries and over 6 000 new entries the online edition of the Encyclopedia of Popular Music includes 50% more material than the Third Edition Featuring a broad musical scope covering popular music of all genres and periods from 1900 to the present day including jazz country folk rap reggae techno musicals and world music the Encyclopedia also offers thousands of additional entries covering popular music genres trends styles record labels venues and music festivals Key dates biographies and further reading are provided for

artists covered along with complete discographies that include record labels release dates and a 5 star album rating system
