Technical Manual Matti Charlton, Matti Charlton Age 11, 1992-05-06 Yes, there are a great deal of errors in this unofficial technical manual produced in 1992 in Canada. And the drawings, while extensive across its 80 pages, but the astounding fact about this Star Trek Technical Manual is that it was made entirely by an 11-year-old boy in the early 1990s, before any semblance of the internet was around. Astonishing to examine the detailed documentation and original technical drawings in this book betray a creative skill to the 11-year-old author well beyond their years. A wonderful and nostalgic examination of the Star Trek universe from the perspective of a child, just as Star Trek: The Next Generation's popularity peaked in popular culture and pre-Deep Space Nine. The amazing talent that oozes from this book more than makes up for the errors and incompleteness. The author wrote and published the original manuscript themselves using an Apple Macintosh Classic computer, and most of the drawings and text were completed in MacDraw and MacWrite respectively. Digitized and reproduced with the author's permission. Enjoy. **Technical Manual** Rick Sternbach, Michael Okuda, 1991-11-01 The Star Trek: The Next Generation Technical Manual, written by Rick Sternbach and Michael Okuda, the technical advisors to Star Trek: The Next Generation, provides a comprehensive schematization of a Galaxy-class starship. From the bridge to the shuttlebays, from the transporter room to the crew's quarters, this book provides a never-before-seen glimpse at the inner intricate workings of the most incredible starship ever conceived. Full of diagrams, technical schematics, and ship's plans, the Star Trek: The Next Generation Technical Manual also takes a detailed look at the principles behind Star Trek's awesome technology, from phasers to warp drive to the incredible holodeck. *Star Trek: Star Fleet Technical Manual*, 1991 **Official Star**

Star Trek--starfleet Technical Manual Franz Joseph, 2006 OFFICIAL USE ONLY MARK R5PC STARFLEET COMMAND STARFLEET HEADQUARTERS UNITED FEDERATION OF PLANETS FRANZ JOSEPH UNITED FEDERATION REPRESENTATIVE STARDATE 7512 02 To Ballantine Books Planetary Agents NA USA 10019 1 A printed Terran version of the Starfleet Technical Manual was approved by the Federation Council for release to civilians and civilian auxiliaries on your planet We have reviewed copies of this version as printed by you and wish to assure you and the others that these copies are precisely correct and complete as authorized We believe some of your civilians are confused because they are unfamiliar with the system and arrangement of Technical Orders therefore we offer the following by way of clarification

2 The print out version of the Starfleet Technical Manual as used by the Starfleet Academy is a collection of only those Technical Orders necessary to the indoctrination of new cadets until such time as they become experienced in the use of the data read out stations of Mastercom SFHQ Further the Terran version contains even fewer Technical Orders because of the prohibition of the Prime Directive Neither version is a book of pages as the questioners seem to think nor do they contain all of the technical information stored in the data banks of Mastercom SFHQ Your civilians must understand these technical data banks contain all the knowledge presently known to the United Federation of Planets from all the member planets If it were to be published in book form the sum total would amount to more books than you now have stored in your libraries Obviously this cannot be done It is equally obvious that you cannot have the galactic knowledge of future centuries given to your planet as a gift you must earn it by your own efforts just as others have done

3 In the Terran version the General Index summarizes the subject area groupings by Technical Order number blocks as a part of the total system of classification It does not give the total classification system nor does it indicate whether or not such subject matter is available The Introduction T 0 00 00 06 for instance is not included because it has not been authorized for release at this time Each Section Index lists the Technical Orders currently approved for each section and shows the correct issue by authentication date and amendment code if required Thus a Section Index shows whether or not a particular manual contains the correct issues Those listed with an asterisk may become available in a future print out from Mastercom SFHQ Other Technical Order numbers that are missing do not appear by reason of the prohibition of the Prime Directive or they have not been approved for release at this time

4 In as gentle and as diplomatic a manner as we may we would like to point out that this confusion is just another example of the many primitive attributes of your planet that prevents its acceptance into the United Federation of Planets at this time in your current calendar But be patient the day will come when your planet will have finally overcome these obstacles and take its place in the intergalactic community of intelligent life forms Live long and prosper
