Tricked The Story Of An Internet Scam:

Start Making Sense Steven J. Heine, 2025-01-28 A beautiful deep thoughtful Angela Duckworth New York Times bestselling author of Grit investigation into the science of why we crave meaning and how we can pursue it in this age of anxiety These days everyone feels on edge panicked by climate change political polarization and artificial intelligence In Start Making Sense psychologist Steven J Heine shows how to overcome our angst and live life with purpose Heine s field existential psychology uses the tools of science to study the kinds of questions famously asked by existential philosophers such as Albert Camus Jean Paul Sartre and Simone de Beauvoir Who are we Why do we seek meaning How do we connect with one another Drawing on decades of research Heine provides scientifically grounded answers to these mysteries He shows that humans evolved to seek meaning our survival depends on our ability to make sense of an absurd world Every day we deploy an arsenal of psychological tactics to make and maintain meaning in our lives from rationalizing our choices to waxing nostalgic about the past to defending our cultural worldviews By understanding why and how we seek to make sense we can live authentic lives in times that don t seem to make sense at all This illuminating book transforms the way we understand our search for meaning and provides a blueprint for building a better life

Battle of the Big Bang Niayesh Afshordi, Phil Halper, 2025-05-29 A thrilling exploration of competing cosmological origin stories comparing new scientific ideas that upend our very notions of space time and reality By most popular accounts the universe started with a bang some 13.8 billion years ago But what happened before the Big Bang And how do we know it happened at all Here prominent cosmologist Niayesh Afshordi and science communicator Phil Halper offer a tour of the peculiar possibilities bouncing and cyclic universes time loops creations from nothing multiverses black hole births string theories and holograms Along the way they offer both a call for new physics and a riveting story of scientific debate Incorporating insights from Afshordi s cutting edge research and Halper s original interviews with scientists like Stephen Hawking Roger Penrose and Alan Guth Battle of the Big Bang compares these models for the origin of our origins showing each theory s strengths and weaknesses and explaining new attempts to test these notions Battle of the Big Bang is a tale of rivalries and intrigue of clashes of ideas that have raged from Greek antiquity to the present day over whether the universe is eternal or had a beginning whether it is unique or one of many But most of all Afshordi and Halper show that this search is filled with wonder discovery and community all essential for remembering a forgotten cosmic past
