

RLC 1080

Power Line Conditioner

Description

The RLC-1080 is a 3 U rack height model designed for very high-performance home entertainment systems. It will ensure uninterrupted power to make your system perform flawlessly. In the event of a complete power outage, or extremely deep-power sag or over-voltage situation, the RLC-1080 power conditioner with internal battery backup will instantaneously provide pure sine wave power from its internal batteries up to 7.5 minutes with a full load and up to 24 minutes with a half load. That's plenty of time to shut down the entertainment system to prevent memory preset loss, etc.

Imagine a power failure while watching your favorite DVD on a high-performance video projector. These devices require a cooling-down period when turned off. Without a backup power

supply, the fan can't work to cool the bulb and you could be facing a very expensive replacement. Another situation that may not be expensive, but can certainly be frustrating, is the loss of system presets that require time-consuming reprogramming.

In addition to the built-in, short-term battery incorporated into the RLC-1080, there's also an option to add additional RSB-1080 batteries to extend the system's working time.

Don't put your expensive home entertainment electronics at risk. Add a Rotel RLC power conditioner to your system today so you can sit back and continue to enjoy the show.
