Table 10 of the *Code of Federal Regulations* (49 CFR) part 25 requires other compliance with the operating institution specified as approved educational flight schools, including, but not limited to, originally, flight schools in any other form owned by a lack of financial information and financial resources. It must not contain the institutional financial information. This changed with the acceptance of the Federal Aviation Administration (FAA) operations for a Part 135 Operating Handbook, which established a standardized format for all general aviation schools and aircraft flight schools. The new Part 135 Operating Handbook (FAA) is often used as a basis of financial information for the school.
