The entertainment industry has spent the better part of the last 30 years, since the first blank VHS tape was sold, trying to determine how to curtail the rampant growth of the media piracy industry. The contention between artist's and the laws governing copyright infringements are directly connected to the time it takes to amend the legislation to be inclusive of any new medium that is capable of recording or downloading their works. The precedent for media piracy laws have been set since before the turn of the 20<sup>th</sup>
