Clymer,2023-09-23 206 pages and more than 180 illustrations and charts size 8 25 x 10 75 inches This Workshop Manual is
appropriate for the entire line of 1952 through 1963 Royal Enfield 700cc models It will also be of use to owners of the 700cc
USA only Interceptor and the Enfield Indian 700cc Apache Trailblazer and Chief A compilation of two factory manuals it
includes the original 1955 Meteor 700 workshop manual for the 1952 to 1955 models and the later workshop manual for the
1955 to 1963 Super Meteor and Constellation PRODUCTION DETAILS Due to a number of different reasons there is some
confusion surrounding production details as it is a known fact that the engine and frame numbering procedure did not follow
a consistent pattern and at times was somewhat random As the Meteor 700 shared many of its mechanical components with
the 500 Twin the earlier manual is appropriate for both of these models Royal Enfield was very adept at utilizing components
across their entire model line and this sharing carried over into their workshop manuals Consequently many of the sections
and illustrations are identified as being appropriate for various models and not necessarily specific to the particular model
referenced in the manual title The second manual is much more specific to the Super Meteor and Constellation models and
the only noticeable shared pages are the carburettor settings table and the lighting frame and special tools sections In order
to help identify the subtle differences between the various models the reader is encouraged to review any of the appropriate
sections in order to eliminate the possibility of referencing an incorrect shared section *Yamaha XT, TT, and SR 500*
